Five Stages of Behaviour Change | Terranova Security

What Causes Behavior Change. The Fogg Behavior Model shows that three elements must converge at the same moment for a behavior to occur: Motivation, Ability, and a Prompt. When a behavior does not occur, at least one of those three elements is missing. The Fogg Behavior Model (FBM) makes it easier to understand behavior in general.

Behavior Model

Rather, change in behavior, especially habitual behavior, occurs continuously through a cyclical process. The TTM is not a theory but a model; different behavioral theories and constructs can be applied to various stages of the model where they may be most effective.
