ASTM D 7566 : 2014 | Standard Specification for Aviation ...

The recent revision to ASTM D7566 allows new components to be manufactured from jatropha, camelina, and fats and combined with conventional aviation jet fuel. Powered in part by a 50 percent jatropha-derived jet fuel, the first experimental demonstration flight (non-passenger) using this bioderived fuel component took off from Auckland, New Zealand, in December 2008. Less than three years ...
