From bestselling author, racer and stunt driver Ben Collins - the man who was The Stig - comes a story of spies, speed and hard-driving genius: a driver's love letter to one of the world's best-loved machines. Aston Martin's first, wickedly fast models were forged at a time when Ferrari's premises at Maranello was nothing but a ploughed field. This book celebrates a century of innovators who kept the fire burning brightly for over a century, from the visionary pioneers Martin and Bamford to modern-day design guru Adrian Newey; from a glamorous web of pre- and post-war spies and racing drivers, to David Brown and the achingly beautiful DB models beloved of Bonds past and present. Ben Collins explores the car with the double-o prefix from a unique perspective behind the wheel, carving through country lanes in his father's V8 Vantage, driving Aston Martins in four James Bond movies and competing against them in the legendary Le Mans 24-hour race. Ultimately, this is a very British success story: of a triumph of engineering that has burned brightly from the Roaring 20s to the 2020s, and an iconic car that never says die.

Astrology, Almanacs, and the Early Modern English Calendar is a handbook designed to help modern readers unlock the vast cultural, religious, and scientific material contained in early modern calendars and almanacs. It outlines the basic cosmological, astrological, and medical theories that undergirded calendars, traces the medieval evolution of the calendar into its early modern format against the background of the English Reformation, and presents a history of the English almanac in the context

of the rise of the printing industry in England. The book includes a primer on deciphering early modern printed almanacs, as well as an illustrated guide to the rich visual and verbal iconography of seasons, months, and days of the week, gathered from material culture, farming manuals, almanacs, and continental prints. As a practical guide to English calendars and the social, mathematical, and scientific practices that inform them, Astrology, Almanacs, and the Early Modern English Calendar is an indispensable tool for historians, cultural critics, and literary scholars working with the primary material of the period, especially those with interests in astrology, popular science, popular print, the book as material artifact, and the history of time-reckoning.

- A tribute to the Volkswagen Beetle, the most-loved car in the world - Glorious photographs throughout Beetle Love endure. It's global and conquers every generation. And this love is classless. Never mind if used as a taxi on a daily basis, as a company car owned by a craft brewery in Ecuador, as a show piece in Great Britain or as a family heirloom in Indonesia: Beetle Love introduces them all. Convertibles and limousines, from red to rusty, from purple to polished. And it's always the story that their owners lost their hearts to the Beetle. And rightly so! Hardly any other car arouses more emotions around the world. All covered in this book, more than 20 stories, 208 pages, a wonderful and unique picture and story book. Text in English and German.

Argues that a manager's central responsibility is to create and implement strategies, challenges popular motivational practices, and shares anecdotes discussing how to enable action-oriented plans for real-world results.

The Art of the Formula 1 Race Car 2022 presents thirteen of the most exciting F1 race cars from seventy-plus years of competition, captured in the studio portraits of master automotive photographer James Mann.
