Atlas Shrugged: A Book Review and Lessons from the Ayn ...

Atlas Shrugged holds a terrifying immediacy, if one can envision today's prosperity holding the seeds of tomorrow's decadence. Except in the isolated cases of unrealized potentials of invention, she has tapped few of the now-evident clues to our immediate mechanical future. One finds it difficult to gauge the time span here.

ATLAS SHRUGGED | Kirkus Reviews

What Is Atlas Shrugged? Atlas Shrugged is Ayn Rand's magnum opus. It is your classic dystopian novel (my favorite genre, if you haven't caught on by all my other reviews). It highlights a well-functioning, self-sufficient country (USA) that later turns into a collectivist hellhole. IE: dystopia.

An Insane Read: Atlas Shrugged Book Review by Ayn Rand

Book Review: Atlas Shrugged by Ayn Rand In early 1945, Ayn Rand embarked on the work which would eventually be considered her literary masterpiece. With a working title of The Strike, she diligently filled numerous notebooks, detailing her characters, plot, and theme, amongst others.

Atlas Shrugged by Ayn Rand | Book Review by The Bookish Elf

Original review of Atlas Shrugged by Ayn Rand from The Salt Lake Tribune, December 1957: Several years ago when Ayn Rand's The Fountainhead appeared we read it with a great deal of pleasure and so, upon seeing Atlas Shrugged looked forward to a good novel – if an extremely long one (1,168 pages).

Atlas Shrugged by Ayn Rand (1957) - a review ...

If you want to get the gist of the philosophy without having to read the entire book, I suggest reading the Atlas Shrugged Cliff Notes or Rand's Virtue of Selfishness instead. Both are much more concise and more to the point of Ayn Rand's themes. Overall, Atlas Shrugged is OK from a literary standpoint, and I give it 6 out of 10 starts. From a philosophical view, I give it 9 stars, for a combined rating of 8 stars.

Atlas Shrugged Review - A Classic of Capitalism

Book review: Atlas Shrugged by Ayn Rand In a nutshell: Forge your own destiny, create something of value, enable a higher form of humankind by daring to think. By Tom Butler-Bowdon 04 Mar, 2011

Book review: Atlas Shrugged by Ayn Rand - Citywire

If recent reports are to be believed, people have started seeing parallels between our current economic meltdown and the world collapse outlined in the 1200 pages of Ayn Rand's libertarian classic...

Atlas Shrugged is absurd but strangely compelling | Books ...

Tremendous in scope, breathtaking in its suspense, "Atlas Shrugged" stretches the boundaries further than any book you have ever read. It is a mystery, not about the murder of a man's body, but about the murder - and rebirth - of man's spirit.

Atlas Shrugged (Penguin Modern Classics): Amazon.co.uk ...

Atlas Shrugged received largely negative reviews after its 1957 publication, but achieved enduring popularity and ongoing sales in the following decades. After several unsuccessful attempts to adapt the novel for film or television, a film trilogy based on it was released from 2011 to 2014.

Atlas Shrugged - Wikipedia

Atlas Shrugged is a book that you should definitely buy and read thoroughly. If you read it closely and really examine Ayn Rand's ideas on government and economics, you will finish it as a much stronger fiscal conservative.

Atlas Shrugged Review » Gen Z Conservative

"Atlas Shrugged" is a huge sprawling dystopian novel that combines economics, science fiction, philosophy, and intrigue. It is the fourth and final novel of Ayn Rand. The novel is written in a modern popular style and is mostly highly readable. Probably the most difficult part of reading this book is its length.

Amazon.com: Customer reviews: Atlas Shrugged

Whittaker Chambers called it "a massive tract for the times" when he reviewed the book for National Review in 1957, the year "Atlas Shrugged" was published and before it gained cult status. "Its...

Why I'm Over 'Atlas Shrugged,' And Conservatives Should Be Too

Atlas Shrugged, first published in 1957, is arguably the most influential work written by the mid-twentieth century philosopher Ayn Rand (other works include Anthem and The Fountainhead).The novel is one of her most enduring successes, particularly amongst those with an interest in philosophy, economics, or politics.

Atlas Shrugged - Book Review - WeekendNotes

Atlas Shrugged: A Book Review? (Part 1) Posted on June 12, 2014 by Joel D. Hirst. Last year I attended an event in Rosario, Argentina to celebrate the 25th year anniversary of the International Liberty Foundation – a classical liberal think tank. The highlight of the event was the presence of Mario Vargas Llosa, Peruvian Nobel Prize winning ...

Atlas Shrugged: A Book Review? (Part 1) | Joel D. Hirst's Blog

Atlas Shrugged is a book you cannot shrug off, and it leaves a mark on you, it alters your thinking, and it is just as relevant in the age of Trump as it ever was, or perhaps more so. Before I get into the movie review, therefore, here is my plug. Go and read Atlas Shrugged, it is worth it, and it will change the way you think about our society.

Movie Review: Atlas Shrugged Trilogy | Norbert Haupt

Given that Atlas Shrugged is a statement of Rand's personal philosophy, the book expresses many of her views on religion, sex, politics, etc. When it was published, it received a lot of negative reviews. Many conservatives hated the book for its atheist views and its upfront treatment of sex.

Atlas Shrugged Introduction | Shmoop

I was prepared to cringe at this Atlas Shrugged, universally panned by the critics for its low budget and no-name cast. Instead, I was pretty impressed. The story was faithful to the book, and the message and narrative clear, with the producers wisely sidestepping most of Rand's stilted polemics.

Peopled by larger-than-life heroes and villains, charged with towering questions of good and evil, Atlas Shrugged is Ayn Rand's magnum opus: a philosophical revolution told in the form of an action thriller–nominated as one of America's best-loved novels by PBS's The Great American Read. Who is John Galt? When he will stop the motor of the world, is he a destroyer or a liberator? Why does he have to fight his battles not against his enemies but against those who need him most? Why does he fight his hardest battle against the woman he loves? You will know the answer to these questions when you discover the reason behind the baffling events that play havoc with the lives of the amazing men and women in this book. You will discover why a productive genius becomes a worthless playboy...why a great steel industrialist is working for his own destruction...why a composer gives up his career on the night of his triumph...why a beautiful woman who runs a transcontinental railroad falls in love with the man she has sworn to kill. Atlas Shrugged, a modern classic and Rand's most extensive statement of Objectivism–her groundbreaking philosophy–offers the reader the spectacle of human greatness, depicted with all the poetry and power of one of the twentieth century's leading artists.

This is the story of a man who said that he would stop the motor of the world, and did. Is he a destroyer or a liberator? Why does he have to fight his battle not against his enemies but against those who need him most? Why does he fight his hardest battle against the woman he loves? The answers to these questions become clear when the reason behind the baffling events that play havoc with the lives of the amazing men and women in this remarkable book is uncovered. Tremendous in scope, breathtaking in its suspense, "Atlas shrugged" is Ayn Rand's magnum opus, and a premier moral apologia for Capitalism.

Ayn Rand is best known as the author of the perennially bestselling novels The Fountainhead and Atlas Shrugged. Altogether, more than 12 million copies of the two novels have been sold in the United States. The books have attracted three generations of readers, shaped the foundation of the Libertarian movement, and influenced White House economic policies throughout the Reagan years and beyond. A passionate advocate of laissez-faire capitalism and individual rights, Rand remains a powerful force in the political perceptions of Americans today. Yet twenty-five years after her death, her readers know little about her life.In this seminal biography, Anne C. Heller traces the controversial author's life from her childhood in Russia during the Bolshevik Revolution to her years as a screenwriter in Hollywood, the publication of her blockbuster novels, and the rise and fall of the cult that formed around her in the 1950s and 1960s. Throughout, Heller reveals previously unknown facts about Rand's history and looks at Rand with new research and a fresh perspective. Based on original research in Russia, dozens of interviews with Rand's acquaintances and former acolytes, and previously unexamined archives of tapes and letters, AYN RAND AND THE WORLD SHE MADE is a comprehensive and eye-opening portrait of one of the most significant and improbable figures of the twentieth century.

The revolutionary literary vision that sowed the seeds of Objectivism, Ayn Rand's groundbreaking philosophy, and brought her immediate worldwide acclaim. This modern classic is the story of intransigent young architect Howard Roark, whose integrity was as unyielding as granite...of Dominique Francon, the exquisitely beautiful woman who loved Roark passionately, but married his worst enemy...and of the fanatic denunciation unleashed by an enraged society against a great creator. As fresh today as it was then, Rand's provocative novel presents one of the most challenging ideas in all of fiction–that man's ego is the fountainhead of human progress... "A writer of great power. She has a subtle and ingenious mind and the capacity of writing brilliantly, beautifully, bitterly...This is the only novel of ideas written by an American woman that I can recall."–The New York Times

Since its publication in 1957 Atlas Shrugged, the philosophical and artistic climax of Ayn Rand's novels, has never been out of print and has received enormous critical attention becoming one of the most influential books ever published, impacting on a variety of disciplines including philosophy, literature, economics, business, and political science amongst others. More than a great novel, Atlas Shrugged is an abstract conceptual, and symbolic work that expounds a radical philosophy, presenting a view of man and man's relationship to existence and manifesting the essentials of an entire philosophical system – metaphysics, epistemology, politics and ethics. Celebrating the fiftieth year of Atlas Shrugged's publication, this companion is an exploration of this monumental work of literature. Contributions have been specially commissioned from a diversity of eminent scholars who admire and have been influenced by the book, the included essays analyzing the novel's integrating elements of theme, plot and characterization from many perspectives and from various levels of meaning.

Ayn Rand's complicated notoriety as popular writer, leader of a political and philosophical cult, reviled intellectual, and ostentatious public figure endured beyond her death in 1982. In the twenty-first century, she has been resurrected as a serious reference point for mainstream figures, especially those on the political right from Paul Ryan to Donald Trump. Mean Girlfollows Rand's trail through the twentieth century from the Russian Revolution to the Cold War and traces her posthumous appeal and the influence of her novels via her cruel, surly, sexy heroes. Outlining the impact of Rand's philosophy of selfishness, Mean Girl illuminates the Randian shape of our neoliberal, contemporary culture of greed and the dilemmas we face in our political present.

While the fiction of novelist-philosopher Ayn Rand is extremely popular and enduring, little has been written on it so far. This book consists of essays, most of which are new, by top Rand scholars on Atlas Shrugged, her magnum opus. The essays deal with historical, literary, and philosophical topics, surpassing related writings in breadth and depth of analysis. The historical essays cover the writing of Atlas Shrugged, its publication history, and its reception. The literary essays cover analysis of the novel's plot, theme, and characterization; comparisons with other works, such as the novels of Hugo, Dostoyevsky, and Joyce; and the proper approach to adapting Atlas Shrugged to film. The philosophical essays cover a vast range of topics, including the place of Galt's speech in the novel, the role of the mind in human life, and the evil of non-objective law. Some of the essays make use of previously unpublished material from the Ayn Rand Archives.

Ayn Rand's masterwork, Atlas Shrugged, is a rich and complex novel with an intricate plot in which dozens of moving parts mesh together and many minor themes are woven in amongst the novel's big philosophical issues. This is a guide to the literary, historical, and philosophical significance of Atlas Shrugged, offering deeper insights for those who are new to the novel as well as new observations for longtime fans. Find out, for example, the real-life parallels to characters and events in Atlas Shrugged; how the novel's plot seems to be opposite from that of Ayn Rand's previous bestseller, The Fountainhead; what Ayn Rand has in common with the epic poets Homer and Hesiod; how Atlas Shrugged is both a historical novel and futuristic work of science fiction; how Ayn Rand was a philosopher in the tradition of the Enlightenment; why Atlas Shrugged is not a political novel; why all an Ayn Rand hero really wants is love; and the question posed in the title: the key to the mysterious figure of John Galt and the meaning of one of the most famous questions in literature, "Who is John Galt?"

The supreme day is the holiest day. It is when we are near death and we must face what we have done with our life. The noblest face it without fear, others tremble. However, when it comes, we still have much to learn about life. Hans Christian Andersen (1805-1875) was a Danish author, poet and artist. Celebrated for children's literature, his most cherished fairy tales include "The Emperor's New Clothes", "The Little Mermaid", "The Nightingale", "The Steadfast Tin Soldier", "The Snow Queen", "The Ugly Duckling" and "The Little Match Girl". His books have been translated into every living language, and today there is no child or adult that has not

met Andersen's whimsical characters. His fairy tales have been adapted to stage and screen countless times, most notably by Disney with the animated films "The Little Mermaid" in 1989 and "Frozen", which is loosely based on "The Snow Queen", in 2013. Thanks to Andersen's contribution to children's literature, his birth date, April 2, is celebrated as International Children's Book Day.

Where is it that gods go after they've been banished? Maybe they haven't gone anywhere. In oblique encounters with passing strangers, the lives of ordinary and not-so-ordinary people turn in new and interesting directions. These stories are based on the myths of the Vikings, but they contain nothing magical or supernatural. Or do they? Sometimes it's hard to tell. Perhaps the magic lies in living men and women as they spend, and sometimes end, their Days in Midgard.
