A: Yes, unlike the predecessor RNS-D CD based navigation which required the TMC module, the new RNS-E navigation allows for the DIS to show all necessary information such as; street names, directional arrows, ETA, distance to turn with countdown, and miles on current route guidance. The DIS also provides the track info, artist name and song title, and all service information which was previously available with the toggle switch.

RNS-E 2010 was remodeled to fit in Audi R8, but internally it's the same device. Retrofited. Many car owners decided to retrofit one of the Audi Navigation Plus units in cars that were not equipped with RNS, or even not supported by the manufacturer. Since Audi cars share most of their components, it was possible to install RNS-D or RNS-E.
