Banana by Dan Koeppel: Summary and reviews

Scientists 'incredibly concerned' for fate of banana as plagues and fungus infections spread across world's supplies. Warning comes as Costa Rica declares 'national emergency' over state of crop

Scientists 'incredibly concerned' for fate of banana as ...

In political science, the term banana republic describes a politically unstable country with an economy dependent upon the exportation of a limited-resource product, such as bananas or minerals. In 1901, the American author O. Henry coined the term to describe Honduras and neighbouring countries under economic exploitation by U.S. corporations, such as the United Fruit Company.
