SOLAR ON THE RISE Just as your power bill continues to rise . . . the sun also rises. Why are we letting a renewable resource that beams down on us each day go to waste? Solar energy is no longer a distant dream of the future. It is a real, viable option for America's power needs, and T.J. Kanczuzewski of Inovateus Solar is mapping out a path for energy independence for anyone looking for clean, renewable power. Within this book, T.J. reveals how to: -Become familiar with the advancements in solar energy. -Understand how individuals and businesses are becoming independent power producers. -Gain inspiration to build a company that meets your objectives, goals, and purpose. Join the success story of an American business that has had an exponential effect on the global energy transformation, and while doing so, discover your independence--discover solar.

The metropolis of the future – as perceived by architect Hugh Ferriss in 1929 – was both generous and prophetic in vision. This illustrated essay on the modern city and its future features 59 illustrations.

From the Dust Jacket: Building Tomorrow's Company is about a new and revolutionary phase in market-based capitalism. This new inclusive approach is about balancing short-term priorities and shareholder value with sustainability, corporate social responsibility and environmental accountability. The basic message is that if businesses are to succeed-or even survive-in the 21st century, they must take into account the social and environmental consequences of their activities. Packed with the latest research and including numerous international case studies, this book shows the reader how companies are building businesses that make equal sense to both shareholders and society. Topics include: the new economy; why attitudes are changing; sustainability; fresh perspectives on investment and governance; why purpose and values matter; engaging with stakeholders; measuring social and environmental performance; winning licences to operate; inclusive leadership; designing tomorrow's companies. Written in an accessible and practical style, Building Tomorrow's Company provides the reader with a unique insight into the changing attitudes and issues surrounding sustainability and the 'inclusive' approach to business.

This collection contains two dozen science fiction short stories. They show hope, fear, hard work, and compelling characters. These stories have appeared in a variety of publications over almost 20 years. Also included in this collection is the novella "A Story from Richland." A stranger appears in Richland on the planet of Ogallah, wanting to make the village his home. He's willing to integrate into his new community, but unwilling to talk about his past. Will the Mayor of this little town learn anything about the new resident?
