It is a very common practice in dealerships that the higher the sales person sales the vehicle for, the higher the sales person's commission. Mason not only educates his readers on the ways banks and car dealerships profit from selling cars, but he also provides the best ways to avoid paying too much on financing, dealer fees, and of course the price of the car itself. *The Car Buying Guide* is different from all other car buying books in that it has a "little something" that most others don't. That little something is the information you need to get to a rock bottom price on the car of your dreams with the least amount of effort in the shortest time possible. Furthermore, *The Car Buying Guide* is written strictly and uniquely from the buyers' perspective, which puts the consumer in the driver's seat.
