Carburetor Jetting Troubleshooting.

Online Library Carburetor Troubleshooting Guide

Carburetor troubleshooting is simple once the basic principles are known. The first step is to find where the engine is running poorly, fig 7. It must be remembered that carburetor jetting is determined by the throttle position, not engine speed. If the engine is having troubles at low rpm

Online Library Carburetor Troubleshooting Guide

(idle to 1/4 throttle), the pilot system or slide valve is the likely problem.

Mikuni carburetor operation and tuning

If the fuel level is set too high in the float chamber, a rich mixture will result. A rich condition may be caused

Online Library Carburetor Troubleshooting Guide

by a dirty or clogged air filter (s). Also keep in mind that both altitude and humidity effect your engine's performance. Carburetor adjustments should be done with engine at normal operating temperature.
