The cat has been used as a subject for dissection in the study of mammalian anatomy for almost two centuries. The very popular Pictorial Anatomy of the Cat by Stephen G. Gilbert, originally published in 1967 and now in its 12th printing, has been used in countless laboratories as a guide to dissection and supplement to introductory textbooks. Outline of Cat Anatomy is an abridged version of the original guide, modified for practical use in one-semester courses. It employs anatomical terms used in human rather than veterinary anatomy and includes illustrations of human anatomy that may be compared with those of the cat, especially useful for the many students who do not have access to human dissections. Gilbert's earlier Pictorial Anatomy of the Cat is "an excellent, well-illustrated dissection guide for use in courses in comparative anatomy. The text is informative and accurate, and instructions for dissection are clear and helpful.... Highly recommended." -Choice

From a biological point of view, the human body is an infinitely complex marvel of fine design, superbly adapted to its functions by eons of evolutionary development. Hundreds of specialized organs, bones, muscles, nerve fibers, blood vessels, and other anatomical features comprise an interdependent network of bodily systems that enables the human organism to survive. Now the component parts of this intricate flesh-and-bone machine can be absorbed and understood by means of an ingenious format: a coloring book that can help mature children and adult colorists learn anatomy. An affordable anatomy class, this easy learning study aid contains careful, scientifically accurate line renderings of the body's organs and major systems: skeletal, muscular, nervous, digestive, reproductive, and more. A total of 68 coloring pages (often with several illustrations on each) offers numerous views, cross-sections, diagrams and detailed closeups, labelled and numbered to correspond with suggestions for coloring. These suggestions are specially designed to emphasize the structural relationship in the body. By working through each system, the reader will gain not only an intimate knowledge of the location, appearance and role of the body parts, this learning tool will also be laying the groundwork for more sophisticated studies of anatomy. books read, search results, author learn, anatomy coloring book, human anatomy coloring book, instructive guide, human body bones muscles blood nerves, margaret matt author joe ziemian author, author central eric wise author, paramedic crash, online practice test, christopher coughlin phd author, human body coloring book, ultimate anatomy study guide, dk author, yoga anatomy coloring book, visual guide, form function, author central samantha stutzman illustrator, edition updated learn, hansen phd jt author, human body activity book, kids hands-on fun, grades k-3, phd katie stokes med author, physiology coloring book 2nd edition, macey author > visit amazon's robert, macey page find, author central robert, author central esmail meisami author, start exploring gray's anatomy, author central freddy stark author, nurse coloring book swearsy midnight edition, author central adult coloring world author, bearing god's image, author central philip yancey author, anatomy medical book, coloring activity medical book, author, coloring, book, books, anatomy, visit, amazon's, human, eric, wise, page, find, body, adult, guide, phd, kelly, solloway, samantha, stutzman, wynn, kapit, read, search, freddy, stark, world, philip, yancey, winbly, scott, entertaining, instructive, stephanie, mccann, edition, activity, start, exploring, nurse, medical, teens, paramedic, crash, online, practice, test, christopher, coughlin, ultimate, coloring, book, anatomy, author, publishing, human, kids, yoga, body, learn, laalpiran, workbook, trickster, academy, leslie, kaminoff, ultimate, study, guide, netter's, animals, edition, grey's, patrick, dempsey, snarky, pages, design, veterinary, students, nurses, easier, neuroanatomy, bengen, studios, vet, tech, meme, funny, adult, cat, dog, netter, updated, hansen, phd, jt, christmas, space, ages, anatomy coloring book, laalpiran publishing author, patrick crown author, human body coloring book, ultimate anatomy study guide, learn anatomy, bengen studios author, edition updated learn, hansen phd jt author, christmas space coloring book, kids ages 4-9 holiday edition, books read, search results, author learn, author central trickster publishing academy author, netter's anatomy coloring book, edition anatomy workbook, discover human body, bengen publishing author, grey's anatomy illustrated book, mega media depot author, charlotte hart author, habib press author, creative design press author, human anatomy coloring book, fk publishing author, veterinary physiology animals workbook, coloring | anatomy magnificent learning structure, students younger kids, activity book, winbly scott
