A future Europe has spiraled into barbarism. The Western Hemisphere stands alone, isolated and sheltered from the destruction - for now. Influenced by the events of World War I, this is the year 2137 as portrayed by Edgar Rice Burroughs' in his science fiction novel The Lost Continent, its subtitle Beyond Thirty being the longitude that Western Hemisphere inhabitants are forbidden to pass.

Skinner founded his career in "asset protection" on fear. To touch anyone under his protection was to invite destruction. A savagely

effective methodology, until Skinner's CIA handlers began to fear him as much as his enemies did and banished him to the hinterlands of the intelligence community. Now, an ornate and evolving cyber-terrorist attack is about to end that long exile. His asset is Jae, a roboticist with a gift for seeing the underlying systems violently shaping a new era of global guerrilla warfare. At the root of it all is a young boy, the innocent seed of a plot grown in the slums of Mumbai. Brought to flower, that plot will tip the balance of world power in a perilous new direction. A combination of Le Carre

From #1 New York Times bestselling author Jennifer L. Armentrout comes a new novel in her Blood and Ash series... Is Love Stronger Than Vengeance? A Betrayal... Everything Poppy has ever

believed in is a lie, including the man she was falling in love with. Thrust among those who see her as a symbol of a monstrous kingdom, she barely knows who she is without the veil of the Maiden. But what she does know is that nothing is as dangerous to her as him. The Dark One. The Prince of Atlantia. He wants her to fight him, and that's one order she's more than happy to obey. He may have taken her, but he will never have her. A Choice... Casteel Da'Neer is known by many names and many faces. His lies are as seductive as his touch. His truths as sensual as his bite. Poppy knows

better than to trust him. He needs her alive, healthy, and whole to achieve his goals. But he's the only way for her to get what she wants—to find her brother Ian and see for herself if he has become a soulless Ascended. Working with Casteel instead of against him presents its own risks. He still tempts her with every breath, offering up all she's ever wanted. Casteel has plans for her. Ones that could expose her to unimaginable pleasure and unfathomable pain. Plans that will force her to look beyond everything she thought she knew about herself—about him. Plans

that could bind their lives together in unexpected ways that neither kingdom is prepared for. And she's far too reckless, too hungry, to resist the temptation. A Secret... But unrest has grown in Atlantia as they await the return of their Prince. Whispers of war have become stronger, and Poppy is at the very heart of it all. The King wants to use her to send a message. The Descenters want her dead. The wolvern are growing more unpredictable. And as her abilities to feel pain and emotion begin to grow and strengthen, the Atlantians start to fear her. Dark secrets are at play, ones

steeped in the blood-drenched sins of two kingdoms that would do anything to keep the truth hidden. But when the earth begins to shake, and the skies start to bleed, it may already be too late.
