Modern Gastrointestinal Oncology is a comprehensive and authoritative book dealing with contemporary issues in diagnosis and management of gastrointestinal cancers. The book is specially designed to update senior students, super-specialty residents, fellows and all clinicians with an interest in gastrointestinal cancers. Interdisciplinary coverage of gastrointestinal cancer by more than 70 authors who are leading epidemiologists, researchers, gastroenterologists, surgeons, medical oncologists and radiation oncologists from all over the world Special emphasis on controversial issues in management of gastrointestinal cancers Dynamic and in-depth information coupled with practical guidelines to aid the busy clinician Lucid presentation with texts, figures, updated case studies and key research questions

Rectal cancer is one of the most prevalent cancers world-wide. It is also a paradigm for multimodal management, as the combination of surgery, chemotherapy and radiotherapy is often necessary to achieve the optimal outcome. Recently, international experts met in Heidelberg, Germany to discuss the latest developments in the management of rectal cancer, including the anatomic and pathologic basis, staging tools, surgical concepts including fast-track surgery and laparoscopic resection, functional outcome after surgery and the role of radio- and chemotherapy. This monograph summarizes this meeting and gives an extensive overview of the current concepts in management of rectal cancer.

This unique book addresses breast cancer in the broad context of the individual, the larger family, and community experiences. Comprehensive chapters on prevention, screening, and treatments cover current research from a nursing perspective. Survivorship, choice and emotional resolution are explored and 'Story as a Way of Knowing' offers insight into the experiences of long-term survivors. Each chapter is comprehensive in its scope of history and current issues and suggests areas of future research.

Understanding the nuances associated with the various neoplasm's that comprise lymphomas can be a challenge to nursing professionals. This book helps broaden the awareness of the biology, classification, and treatment options available to patients with lymphoma. Contemporary Issues in Lymphoma provides an overview of lymphoid malignancies (including epidemiology and etiology), the immune system and lymphoid malignancies, and the cytogenetics of lymphoid malignancies.

This book addresses key issues of controversy within this surgical area. The editors selected 12 topics of current interest that are associated with controversy and debate. A balanced view is presented, drawing on recent data. A conclusion section summarizing each issue gives a clear view of the current position and the relevance for management practice. The book is written from an international perspective and includes contributions from world-recognized authors.

Contemporary Issues in Women's Cancers addresses the incidence, prevalence, assessment, diagnosis and treatment of cancers specific to women—in particular, gynecological cancers. This new resource provides nurses with a comprehensive, up to date, ready reference that will enhance their clinical practice, and help them treat their patients amidst not only the changing healthcare system in US, but also the changing ways in which cancer is diagnosed and treated. Expert authors, all member of the SGNO, offer their expertise in exploring the psychological issues associated with having cancer, and offer insight on providing assistance and resources to the individuals and families facing this disease. Every health care provider who uses this text will grow and expand their knowledge, their care and their service to their patients
