Engine-tuning expert A. Graham Bell steers you through the various modifications that can be made to coax maximum useable power output and mechanical reliability from your two-stroke. Fully revised with the latest information on all areas of engine operation, from air and fuel, through carburation, ignition, cylinders, porting, reed and rotary valves, and exhaust systems to cooling and lubrication, dyno tuning and gearing.

Expand your artistic vision with HDR photography By artfully blending multiple exposures, you can create images with incredible detail, photos that mimic fine paintings, surrealistic imagery – once you understand the process, your options are virtually endless. This book explains the tools you need to get started and how to create high dynamic range (HDR) images. You learn to evaluate a scene, photograph different subjects for the best HDR results, gain skill with software, and begin a lifetime of exploration. See how HDR compensates for the camera's limited ability to record the visible range of light Examine the necessary camera features and accessories Learn to process HDR images using Photomatix and Photoshop® Elements Learn to create HDR photos from single exposures Experiment with landscapes, cityscapes, interior shots, black-and-white, nighttime photos, and more Save 15% on Photomatix software when you buy this book! Details inside!

DIVIn Plant by Numbers, author Steve Asbell takes interior container gardening to a much prettier level with 50 original planting projects presented through a fun, witty, recipe-style layout with full-color photos and custom planting diagrams. /div
