The 7-hp International Cub Cadet 70 was based on the original Cub Cadet and used the same Kohler K161 single-cylinder air-cooled engine and International 3-speed transmission. However, there were major changes: a redesigned frame and straight-through driveline from the engine to the transmission, eliminating the V-belt drive of the original model.

An illustrated history of the garden tractors that make small farms and vast gardens grow--the Cub Cadets, John Deeres, Simplicitys, Fords, Ariens, Wheel Horses, Kubotas, etc.

Garden tractors have come a long way. And as anyone who has acquired a few acres knows, these are the machines that do the yeoman's work, the tilling and mowing and pulling and plowing that makes a small farm or a vast garden grow. This illustrated history features the brands that have endeared themselves the landowners everywhere--the Cub Cadets and John Deeres, Simplicitys and Fords, Ariens, and Kubotas that, in their can-do engineering, dependability, and bright good looks, are more than mere machines around the yard and small farm. Accompanied by current and vintage images of these indefatigable machines, this chronicle of the garden tractor is a wonderful testament to what makes America work, furrow by furrow.

The book enthusiasts have been waiting for! From their inception in the 1940s through the end of production, this book discusses in detail the popular Farmall Cub, Bug Lo-Boy, and much-needed coverage of the Cub Cadet line. Amazing archival color images, advertisements, and detailed text deliver hard-to-find information on the development and design evolution of each model. Complete with implements, uses and improvements, serial number dates and codes, engine and carburetor coverage.
