Data Interpretation: Practice Book for the CAT and Other MBA Entrance Examinations, 1e Paperback - 1 January 2013 by Nishit Sinha (Author)
3.6 out of 5 stars 25 ratings See all formats and editions

This revised edition renews our commitment to provide you strong and relevant concept building and application methodology. This will help to make your preparation upgraded, focused and targeted. It also has fresh worked-out examples as per the latest pat

This book over the years has proved to be a great architect in shaping student's ability to master Logical Reasoning and Data Interpretation for CAT examination. The fifth edition covers all the fundamental and advanced topics, supported by ample number of worked out examples, caselets, and exercises . It also provides clarity and knowledge of the concepts and questions that are asked in various MBA entrance examinations such as XAT, SNAP, IIFT, IRMA, MAT, NMAT, etc.

The Pearson Guide to Quantitative Aptitude for CAT 2/e has everything you need to secure a top score in the quantitative aptitude papers of the CAT and other MBA entrance examinations. Written in a student-friendly style, this book explains concepts in a concise manner and includes numerous examples and worked-out problems. It also contains ample practice problems, scientifically designed and arranged in four levels (in an increasing order of difficulty). The text also contains a chapter on Vedic mathematics, which provides unique time-saving and easy techniques for complex calculations.

Data Interpretation: Practice Book for the CAT and Other MBA Entrance Examinations aims to help students to sharpen their skills in data interpretation. The crisp, concise and comprehensive presentation of the content ensures easy understanding. The students get to solve different types of questions that usually appear in CAT as well as other management entrance examinations like MAT, GMAT, CMAT, SNAP, NMAT, etc.

This edition is a one stop solution for aspirants preparing for the

verbal and reading comprehension section of CAT and other similar examinations. It provides new topics and exercises as per the recent pattern of CAT including NON MCQ based questions. Presented in crisp, clear and comprehensive manner, students will find this as an indispensable source in their preparation quest. Practice exercises are provided in hierarchical order of difficulty so that a student can test himself at every juncture of his preparation and recognize sectors of comfort and those that need particular attention. This book is also useful for other B-school entrance exams like XAT, SNAP, IIFT etc.

Numbers rule our world! Numbers are involved in everything we do - from purchasing something in a store, reading a book, driving a car, to doing mathematics! They are also the basic element of Quantitative Aptitude (QA) that occupies the most challenging and prominent place in all the major MBA entrance examinations. Master Number System for CAT and GMAT® in its third edition offers an in-depth coverage of all the topics related to the number system. It provides an array of comprehensive class-tested material which will help the students to understand the basic concepts of number system as well as how to apply that knowledge to an ever-expanding set of numerical applications/problem/ questions. It acts as a sound foundation for mastering the concepts.
