Jenny Offill 's novel, Dept. Of Speculation is a perfect, condensed (as in nothing spare or superfluous – every word is knife point) chronicle of lives lived with full-on, unapologetic drama and baggage. Not the lives our pre-adult selves imagined having, but the emotional grist that most of us actually end up with.

An unflinching portrait of marriage features a heroine simply referred to as "the Wife," who transitions from an idealistic woman who once exchanged love letters with her husband and who confronts an array of universal difficulties.

Grace's father believes in science and builds his daughter a dollhouse with lights that really work. Grace's mother takes her skinny-dipping in the lake and teaches her about African hyena men who devour their wives in their sleep. Grace's world, of fact and fiction, marvels and madness, is slowly unraveling because her family is coming apart before her eyes. Now eight-year-old Grace must choose between her two very different, very flawed parents, a choice that will take her on a dizzying journey, away from her home in Vermont to the boozy, flooded streets of New Orleans--and into the equally wondrous and frightening realm of her own imagination. With eloquence and compassion, Jenny Offill weaves a luminous story of a wounded family and of a young girl yearning to understand the difference between fiction, fact, and hope. A novel of vibrant imagination and searing intelligence, *Last Things* is a stunning literary achievement.

“ Tense, moving, and hilarious . . . [A] dark jewel of a novel. ” —Francine Prose, O, The Oprah Magazine Three husbands have left her. I.R.S. agents are whamming on her door. And her beloved cat has gone missing. She's back and forth between Melanie, her secluded Southern town, and L.A., where she has a weakening grasp on her job as a script doctor. Having been sacked by most of the studios and convinced that her dealings with Hollywood have fractured her personality, Money Breton talks to herself nonstop. She glues and hammers and paints every item in her place. She forges loving inscriptions in all her books. Through it all, there is her darling puzzling daughter who lives close by but seems ever beyond reach, and her son, the damaged victim of a violent crime under police protection in New York. While both her children seem to be losing all their battles, Money tries for ways and reasons to keep battling. Why Did I Ever is a book of piercing intellect and belligerent humor. Since its first publication in 2002 it has had a profound impact, not only on Robison ' s devoted following, but on the shape of the contemporary novel itself.

Dispatch, and Real Simple Twenty-year-old Tassie Keltjin, the daughter of a gentleman farmer, has come to a university town as a student. When she takes a job as a part-time nanny for a mysterious and glamorous family, she finds herself drawn deeper into their world and forever changed. Told through the eyes of this memorable narrator, *A Gate at the Stairs* is a piercing novel of race, class, love, and war in America.

“ Hilariously funny. . . . Lydia Millet ’ s novels raise the bar for boldness. ” —Rene Steinke, *New York Times Book Review* On the grounds of a Caribbean island resort, newlyweds Deb and Chip—our opinionated, skeptical narrator and her cheerful jock husband who's friendly to a fault—meet a marine biologist who says she's sighted mermaids in a coral reef. As the resort's "parent company" swoops in to corner the market on mythological creatures, the couple joins forces with other adventurous souls, including an ex–Navy SEAL with a love of explosives and a hipster Tokyo VJ, to save said mermaids from the "Venture of Marvels," which wants to turn their reef into a theme park. *Mermaids in Paradise* is Lydia Millet's funniest book yet, tempering the sharp satire of her early career with the empathy and subtlety of her more recent novels and short stories. This is an unforgettable, mesmerizing tale, darkly comic on the surface and illuminating in its depths.

A child tells an outlandish tale of what took place while a younger sibling was taking a nap.

Losing a friend can be as painful and as agonizing as a divorce or the end of a love affair, yet it is rarely written about or even discussed. *THE FRIEND WHO GOT AWAY* is the first book to

address this near-universal experience, bringing together the brave, eloquent voices of writers like Francine Prose, Katie Roiphe, Dorothy Allison, Elizabeth Strout, Ann Hood, Diana Abu Jabar, Vivian Gornick, Helen Schulman, and many others. Some write of friends who have drifted away, others of sudden breakups that took them by surprise. Some even celebrate their liberation from unhealthy or destructive relationships. Yet at the heart of each story is the recognition of a loss that will never be forgotten. From stories about friendships that dissolved when one person revealed a hidden self or moved into a different world, to tales of relationships sabotaged by competition, personal ambition, or careless indifference, *THE FRIEND WHO GOT AWAY* casts new light on the meaning and nature of women ' s friendships. Katie Roiphe writes with regret about the period in her life when even close friends seemed expendable compared to men and sex. Mary Morris reveals how a loan led to the unraveling of a lifelong friendship. Vivian Gornick explores how intellectual differences eroded the bond between once inseparable companions. And two contributors, once best friends, tell both sides of the story that led to their painful breakup. Written especially for this anthology and touched with humor, sadness, and sometimes anger, these extraordinary pieces simultaneously evoke the uniqueness of each situation and illuminate the universal emotions evoked by the loss of a friend.

"[Nightbitch] feels like reading a deliciously long text from your smartest friend, with a hint of Kafka, if Kafka lived in the age of mommy bloggers . . . metamorphosis."—Glamour In this blazingly smart and voracious debut, an artist turned stay-at-home mom becomes convinced she's turning into a dog. One day, the mother was a mother, but then one night, she was quite suddenly something else... An ambitious mother puts her art career on hold to stay at home with her newborn son, but the experience does not match her imagination. Two years later, she steps into the bathroom for a break from her toddler's demands, only to discover a dense patch of hair on the back of her neck. In the mirror, her canines suddenly look sharper than she remembers. Her husband, who travels for work five days a week, casually dismisses her fears from faraway hotel rooms. As the mother's symptoms intensify, and her temptation to give in to her new dog impulses peak, she struggles to keep her alter-canine-identity secret. Seeking a cure at the library, she discovers the mysterious academic tome which becomes her bible, *A Field Guide to Magical Women: A Mythical Ethnography*, and meets a group of mommies involved in a multilevel-marketing scheme who may also be more than what they seem. An outrageously original novel of ideas about art, power, and womanhood wrapped in a satirical fairy tale, *Nightbitch* will make you want to howl in laughter and recognition. And you should. You should howl as much as you want.
