~~Neck pain – NHS~~

Last update - 23rd Aug 2020. Migraine and tension-type headaches are frequently accompanied by neck and muscular pain. This suggests that there is a functional connection between the trigeminal nerve afferents and the cervical nerve root afferents via the trigeminocervical nucleus. Some suggest that neck pain is a consequence of migraine, while others believe that neck pain is either a trigger of, or at least a contributor to, migraine.
