Remarks by Mr. Draghi at the 19th Meeting of the IMFC, April 25, 2009, regarding the efforts of the Financial Stability Board to stabilize the global financial system and plan a future regulatory environment.

Europe ' s financial crisis cannot be blamed on the Euro, James contends in this probing exploration of the whys, whens, whos, and what-ifs of European monetary union. The current crisis goes deeper, to conundrums that were debated but not resolved at the time of the Euro ' s invention. And, Euro or no Euro, these clashes will continue into the future.

This book examines the settings of John Dryden s poem A Song for St Cecilia s Day, 1687 by Giovanni Draghi & George Frideric Handel, establishing similarities and disparity in the text setting & word painting techniques employed by the two composers. Exploring the respective backgrounds of the poet and composers, the book also considers some of the poetic elements of Dryden s poem & their relationship to music, placing in context the musical setting of a poem in honour of St Cecilia. Deeper analysis of the methods of text setting, word painting practices & structural components of the two compositions reveals similarities & contrasts in methodology & in the effectiveness of the resulting musical material. The development of musical form in the years separating the two works contributes in part to the variance in text setting practice, though it is Draghi s pre-occupation with small scale effects & the word painting of individual textual elements that contrasts sharply with Handel s broadly structured conception of the poem. This book will appeal to amateur & professional musicians alike, as well as to readers interested in poetry & music of the 17th and 18th centuries.
