This book fills a gap in the existing resources available to students and professionals requiring an academically rigorous, but practically orientated source of knowledge about real estate finance. Written by a bank vice-president who for many years has practiced as a commercial lender and who teaches real estate investment at university level, and an academic whose area of study is finance and particularly valuation, this book will lead readers to truly understand the fundamentals of making a sound real estate investment decision. The focus is primarily on the valuation of leased properties such as apartment buildings, office buildings, retail centers, and warehouse space, rather than on owner occupied residential property.

Explaining how finances drive each decision in the real estate development process, this helpful industry guide recognizes the complexities and significant risks of each project and illustrates how to reconcile conflicting elements to ultimately achieve success. A 36-year real estate development veteran, author Charles Long shares the practical information and personal insights that he has gained over the course of his career, and weaves relevant real world examples into the text, helping to clarify the principles necessary to effectively manage a project in today ' s financial landscape. Ideal both for those starting out in real estate development and experienced professionals who want to learn the theory behind the practice, this book offers a different perspective on making the monetary decisions that are involved in property development projects.

Combining state specific information with finance principals, this easy to read text explores the impact of financial markets on real estate transactions and discusses the growing role of technology in financing. It contains answer keys (PIN Access Only), and a chapter quiz at the end of each chapter.
