Sultanate of Oman: 50 golden years of progress

From Juha Vaatainen ' s blazing sprint finish in the 10,000m in Helsinki 1971 to Karsten Warholm equalling the long-standing European indoor 400m record in Glasgow 2019, European Athletics remembered some of the greatest moments of the last five decades as part of the ' 50 Golden Moments ' series to celebrate 50 years of European Athletics.

50 Golden Moments - European Athletics

This tribute examines the life of this outstanding personality and monarch, with emphasis on her Canadian experiences.

In an age plagued by selfishness, materialism, and violence, ethicists feel impelled to find a universal system of values. To arrive at such a "rule" requires that they struggle with a series of seemingly irreconcilable questions. First, are universal values possible in a pluralistic world, and how does one do justice to both human equality and to individual and cultural differences? How is one to understand the interface between religious moral teachings and the ethics of secular humanism? Finally, can such a system integrate moral intuition and moral reason? In the first scholarly book in English on the golden rule since the seventeenth century, Jeffrey Wattles demonstrates how a clear understanding of the psychological, philosophical, and religious ramifications of the rule can form the synthesis needed to solve these dilemmas. The golden rule, "do to others as you would have others do to you," is widely assumed to have a single meaning, shared by virtually all the world's religions. It strikes the average person as intuitively true, though most modern philosophers reject it or recast it in more rational form. Wattles surveys the history of the golden rule and its spectrum of meanings in diverse contexts, ranging from Confucius to Plato and Aristotle, from classical Jewish literature to the New Testament. He also considers medieval, Reformation, and modern theological and philosophical responses and objections to the rule, as well as how some early twentieth-century American leaders have tried to use the rule. Wattles draws these diverse interpretation into a synthesis that responds, at the psychological, philosophical, and religious levels, to the challenges to moral living in any given culture. Emotionally, the rules counsels consideration for others feelings by asking that "you place yourself in their shoes." Intellectually, it activates moral thinking about what is fair. At the same time, it retains a spiritual appeal as "the principle of the practice of the family of God." Demonstrating how, despite its contentious history, this age-old ethical principle contiues to be relevant in dealing with contemporary issues, The Golden Rule should interest students and scholars working in religious studies, philosophy and ethics, and psychology, as well as anyone looking for an alternative to postmodern cynicism and alienation.

For the past five decades the Texas Observer has been an essential voice in Texas culture and politics, championing honest government, civil rights, labor, and the environment, while providing a platform for many of the state ' s most passionate and progressive voices. Included are ninety-one selections from Roy Bedichek, Lou Dubose, Ronnie Dugger, Dagoberto Gilb, Jim Hightower, Molly Ivins, Larry McMurry, Maury Maverick Jr., Willie Morris, Debbie Nathan, and others. To mark the Observer ' s fiftieth anniversary, Char Miller has selected a cross section of the best work to appear in its pages. Not only does the collection pay homage to an important alternative voice in Texas journalism, it also serves as a progressive chronicle of a half-century of life in the Lone Star State—a state that has spawned three presidents in the last forty years. If Texas is, as some say, a crucible for national politics, then Fifty Years of the Texas Observer can be read as a casebook for issues that concern citizens in all fifty states. Molly Ivins's foreword gives historical background for the Observer and sets the stage for the book.
