~~Follow the Water from Brook to Ocean-Dorros, Arthur~~
NET's documentary Follow the Water is a story about connections between the environment and people, and a river that has shaped the land itself. For almost two months, Forsberg and Stegen pushed themselves to the limit - biking, hiking and canoeing from the headwaters of the North Platte River in Wyoming to the mouth of the Platte where it flows into the Missouri.

Winner of the 2021 Caldecott Medal Inspired by the many indigenous-led movements across North America, We Are Water Protectors issues an urgent rallying cry to safeguard the Earth's water from harm and corruption\u2014a bold and lyrical picture book written by Carole Lindstrom and vibrantly illustrated by Michaela Goade. Water is the first medicine. It affects and connects us all . . . When a black snake threatens to destroy the Earth And poison her people's water, one young water protector Takes a stand to defend Earth's most sacred resource.

Three small children follow a brook as they explore the woods around their new home.

What would you see if you ride a submarine to explore the deep blue sea? You'll be seeing fish and whales and sharks and all marine animals in between! It's the same adventure when you open this book and start your own ocean exploration. You'll see pictures to come with texts so information will stick better. Grab a copy today!

The Author's Book Journal is a must have for anyone writing a book or a novel. It easily lets you keep track of events and characters in your chapters. There are dedicated pages for 100 chapters, plus main character profiles, secondary characters profiles and also pages to note reference research sources, acknowledgements, quotes, notes, prologue, epilogue, back cover blurb, beta readers, ARC reviews, publishing details, author details. You also have some extra pages at the back for making notes on ideas for your next book. Keep all your book information in one handy place. Journal size 7x10 inches.

Ages 4-10. Inspire wonder and awe for the ocean and its real-life animals through this undersea Halloween adventure! Ray the flashlight fish is a unique fish with the ability to glow whenever he gets scared. This wonderful talent might just prove useful as he attends his very first Halloween party at an old sunken shipwreck in the moonlit ocean shallows. Join Ray on his adventure as he bravely explores the dimly lit ship and encounters the strangest of creatures. While they may initially give Ray a fright, he soon realizes that his friends the ghost crab, the vampire squid, the goblin shark and many more are the perfect friends to spend time with at Halloween!

Everything you need to create exciting thematic science units can be found in these handy guides. Developed for educators who want to take an integrated approach, these guides contain resource lists, reading selections, and activities that can be easily pulled together for units on virtually any science topic. Chapters identify and describe comprehensive teaching resources (nonfiction) and related fiction reading selections, then detail hands-on science and extension activities that help students learn the scientific method and build learning across the curriculum.
