Basic Management Skills There are four basic management skills anyone must master to have any success in a management job. These four basic skills are to plan, organize, direct, and control and they are discussed separately in detail below.

Basic Management Skills for Beginners

According to Fayol, management operates through five basic functions: planning, organizing, coordinating, commanding, and controlling. Planning: Deciding what needs to happen in the future and generating plans for action (deciding in advance). Organizing (or staffing): Making sure the human and nonhuman resources are put into place.

Management - Wikipedia

Project Management Fundamentals This section helps to build the fundamentals and basic concepts of project management. What is a Project – A project is a temporary endeavor undertaken to create a unique product, service or result. Temporary means definite start and definite finish and not like operations.
