The Lost Fleet is a military science fiction series written by John G. Henry under the pen name Jack Campbell. The series is set one-hundred-plus years into an interstellar war between two different human cultures, the Alliance and the Syndics. The protagonist of the story is discovered floating in a suspended animation escape pod one hundred years after he made a "heroic last stand" against an enemy fleet. In his absence, he has been made into a renowned hero in the Alliance, but his legend and

Admiral John "Black Jack" Geary journeys home with a captured warship and representatives of an alien species while staying one step ahead of the threatening Syndicate Worlds regime.

Admiral Geary's First Fleet of the Alliance has survived the journey deep into unexplored interstellar space, a voyage that led to the discovery of new alien species, including a new enemy and a possible ally. Now Geary's mission is to ensure the safety of the Midway Star System, which has revolted against the Syndicate Worlds empire—an empire that is on the brink of collapse. To complicate matters further, Geary also needs to return safely to Alliance space not only with representatives of the Dancers, an alien species, but also with Invincible, a captured warship that could possibly be the most valuable object in human history. Despite the peace treaty that Geary must adhere to at all costs, the Syndicate Worlds regime threatens to make the fleet's journey back grueling and perilous. And even if Geary escorts Invincible and the Dancers' representatives home unharmed, the Syndics' attempts to spread dissent and political unrest may have already sown the

“One of the best military science fiction series on the market,” (Monsters and Critics) The Lost Fleet delivers thrilling combat on a grand space opera scale. Now, Admiral John “Black Jack” Geary embarks on a brand new mission—to defend the Alliance from itself—in New York Times bestselling author Jack Campbell’s latest action-packed novel... Two Syndicate World star systems have fallen prey to a mysterious fleet of warships—a fleet controlled entirely by artificial intelligence—that is now targeting Alliance space. The warships are no mystery to Geary. They were developed by his government to ensure security, but malfunctioned. If the Syndics learn the truth, the war with the Alliance will resume with a vengeance. As the government attempts to conceal the existence of the A.I. warships—and its role in their creation—Geary pursues them, treading a fine line between mutiny and obedience. But it soon becomes clear that his fleet is no match for the firepower of the machine-piloted armada. With the help of the Dancer species of aliens, Geary has tracked the A.I. ships to their secret base in the supposedly mythical Unity Alternate star system where his fleet, the last hope of the Alliance’s
