Find out everything you need to know about automotive braking systems in this do-it-yourself manual.

The definitive DIY manual on automotive braking systems. Covers pad and shoe replacement on all common systems, component overhaul and ABS. Includes unique colour section showing drum brake layouts, and fault finding charts.

Covers most anti-lock braking systems currently in use. Includes ABS theory, troubleshooting and a thorough description of how each system works.

This complete, all-color guide to the theory and practice of automotive and disc braking systems contains information on design, manufacture, and testing of components; maintenance requirements; causes of brake noise and abnormal wear; and advice on when to replace components. Also explains mathematical principles of braking and offers a primer on anti-lock braking systems.

This series of comprehensive manuals gives the home mechanic an in-depth look at specific areas of auto repair.

Covers common mechanics hand tools and power tools, including specialized tools, meters and precision measuring tools. Information on selecting tools, using tools and setting up a workshop.

Complete coverage for your Harley-Davidson Sportster for 1970 thru 2013 covering XL, XLH, XLCH, XLS and XLX with 883/1000/1100 and 1200 engines (Does not include XR-1000 engine information or 2009-on XR models): --Routine Maintenance and servicing --Tune-up procedures --Engine, clutch and transmission repair --Cooling system --Fuel and exhaust --Ignition and electrical systems --Brakes, wheels and tires --Steering, suspension and final drive --Frame and bodywork --Wiring diagrams --Reference Section With a Haynes manual, you can do it yourself â from simple maintenance to basic repairs.
