This is a fine book, and David Hawkins is a fine teacher, one of the best by my reckoning. But is still just a man, and this is still just a book. Apply the practices he teaches, seek the subjective experience of God as he describes, and decide for yourself.

I concludes the presentation of a long-predicted major advance in critical human knowledge. It explains and describes the very substrate and essence of consciousness as it evolved from its primordial appearance as life on earth on up through evolution as the human ego, and hence, to the ego's transcendence as the spiritual Reality of Enlightenment and the Presence of Divinity. On the referenced Scale of the Levels of consciousness, which calibrates the levels of Truth from 1 to 1,000, Power versus Force calibrates at 850, The Eye of the I at 980, and the final volume of the trilogy, I, calibrates at a conclusive 999.8. The uncommon clarity and lucidity with which the highly evolved subject matter is presented facilitates the reader's understanding and comprehension. As with the reading of Power versus Force or The Eye of the I, the reader's level of consciousness increases measurably as a consequence of exposure to this material itself, which is presented from a catalytic, powerful field of context and exposition. Conflict is resolved within the mind of the student by means of recontextualization, which solves the dilemma. Argument and adversity are resolvable by identifying the positionalities of the ego which are the basis of human suffering.

Concludes the presentation of a long-predicted major advance in critical human knowledge. The uncommon clarity and lucidity with which the highly evolved subject matter is presented facilitates the reader's understanding and comprehension. The nature of consciousness is described in terms that recontextualize and simplify the spiritual process. The nonlinear reality of the enlightened sage is thereby made comprehensible to the reasoning mind.

This is the seventh book in a progressive series based on the revelations of consciousness research. It describes in detail how to discern not only truth from falsehood but also the illusion of appearance from the actual core of reality. The text explains how to differentiate perception from essence, and thereby enables the reader to resolve the ambiguities and classical riddles that have challenged mankind for centuries and baffled the best minds in history. While modern technologies have provided a phethora of new toys and conveniences, the basic problems of daily existence remain. This book provides the tools to survive and regain fundamental autonomy and inner harmony while living with the complexities of the modern world.

Reveals a breakthrough in documenting a new era of human knowledge. Only in the last decade has a science of Truth emerged that, for the first time in human history, enables the discernment of truth from falsehood. Presented are discoveries of an enormous amount of crucial and significant information of great importance to mankind. Truth and Reality, Dr. Hawkins states, have no secrets, and everything that exists now or in the past- even a thought- is identifiable and calibratable from the omnipresent field of Consciousness itself.

This is the second volume of a trilogy that began with Power vs. Force and will be completed in the year 2002 by the publication of the third volume entitled I: Reality and Subjectivity. The Eye of the I (which calibrates at 950) is more advanced than Power vs. Force (which calibrates at 850) and brilliantly reveals the very core of the spiritual process critical to the state of Enlightenment. The intrinsic power of the information provided in this startling classic is sufficient of itself to elevate the consciousness of the reader. This likelihood has been anticipated and provided for by preparatory recontextualizations. Included are verbatim dialogues with advanced students, instructions, and explanations that illuminate the spiritual teachings. The Eye of the I is a brilliant work that dissolves the barriers between the known and the unknown, between science and spirituality, and between the Newtonian linear paradigm of the ego and the nonlinear reality of Enlightenment. With the resolution of the self, the Self shines forth and reveals one's true identity.

The now widely known Map of calibrated levels of Consciousness was presented in Power vs. Force in 1995 and has been translated into all the world's major languages. This was followed by The Eye of the I (2001), I: Reality and Subjectivity (2003), and Truth vs. Falsehood (2005), which explored the levels of Truth reflected throughout society. Transcending the Levels of Consciousness returns to the exploration of the ego's expressions and inherent limitations and gives detailed explanations and instructions on how to transcend them. As with the reading of Dr. Hawkins' previous books, the reader's level of consciousness is advanced as a consequence of exposure to the information itself. This opens up avenues to the relief of suffering for oneself and others, which fulfills the purpose of the work and the intention to facilitate the reader's own Enlightenment.

The sixth book in a progressive series by Dr. David R. Hawkins, this work finalizes and further clarifies the true nature and core of the condition termed Enlightenment. It is primarily an instruction manual for the serious spiritual devotee and reveals information only known by those who have transcended the ego to reach Divine Realization. This is the inner route from the self to the Self, and the descriptions of the progressive states are devoted to the reader's own illumination. This work will appeal to those who themselves are dedicated to the spiritual Reality of Truth as the direct pathway to God.

An accessible exploration of best-selling author's most famous work, The Map of Consciousness, that helps readers experience healing and transcendence. We are all born with a level of consciousness, an energetic frequency within the vast field of consciousness. And with The Map of Consciousness, we can truly understand the total spectrum of human consciousness. Using a unique muscle-testing method, Dr. David R. Hawkins conducted more than 250,000 calibrations during 20 years of research to define a range of values, attitudes, and emotions that correspond to levels of consciousness. This range of values-along with a logarithmic scale of 1 to 1,000-became the Map of Consciousness, which Dr. Hawkins first wrote about in his best-selling book, Power vs. Force. With the Map, Dr. David R. Hawkins laid out the entire spectrum of consciousness, from the lower levels of Shame, Guilt, Apathy, Fear, Anger, and Pride; to Courage, Acceptance, and Reason; all the way up to the more expanded levels of Love, Ecstasy, Peace, and Enlightenment. These "higher" energy fields are a carrier wave of immense life energy. An essential primer on the late Dr. David R. Hawkins's teachings on human consciousness and their associated energy fields, The Map of Consciousness Explained offers readers an introduction and deeper understanding of the Map, with visual charts and practical applications to help them heal, recover, and evolve to higher levels of consciousness and energy. This book is a light unto the path of any individual who wants to become more effective in any area of life.
