Balance of Power: Meaning, Nature, Methods and Relevance

Balance of power, in international relations, the posture and policy of a nation or group of nations protecting itself against another nation or group of nations by matching its power against the power of the other side, either by increasing their own power or by adding to their own power that of other states.

balance of power | Definition & Examples | Britannica

The balance of power theory in international relations suggests that states may secure their survival by preventing any one state from gaining enough military power to dominate all others. If one state becomes much stronger, the theory predicts it will take advantage of its weaker neighbors, thereby driving them to unite in a defensive coalition .

Balance of power (international relations) - Wikipedia

Noting the shift in balance at the Supreme Court, the article stated that " Republicans have engaged in a hypocritical power play that threatens to undermine the legitimacy of the judiciary. " The New York Times , which is fiercely critical of Trump and a mouthpiece for the liberals, is scaring people with horror stories about what will happen if Barrett becomes a justice of the Supreme Court.
