Industrial design graduate Florian Schmid made these stools by folding fabric that's impregnated with cement then drenching it in water. Called Stitching Concrete, the stools are made from a material called Concrete Canvas, which Dezeen featured in 2009. It consists of cement layered between fabric and a PVC backing. Once soaked it can be manipulated

[Amazon.com: Industrial Design: Materials and Manufacturing ...](#)

Manufacturing is the production of products for use or sale, using labor and machines, tools, and chemical or biological processing or formulation. It is the essence of secondary sector of the economy. The term may refer to a range of human activity, from handicraft to high-tech, but is most commonly applied to industrial design, in which raw materials from the primary sector are transformed ...
