publish diverse, state-of-the-discipline literature reviews that advance knowledge and understanding of communication systems, processes, and impacts across the discipline. Topics dealt with include Communication as Process, Research Methodology in Communication, Communication Effects, Taxonomy of Communication and European Communication Theory, Information Systems Division, Mass Communication Research, Mapping the Domain of Intercultural Communication, Public Relations, Feminist Scholarship, Communication Law and Policy, Visual Communication, Communication and Cross-Sex Friendships Across the Life Cycle, Television Programming and Sex Stereotyping, InterCultural Communication Training, Leadership and Relationships, Media Performance Assessment, Cognitive Approaches to Communication.

This book is a practical and theoretical discussion of how to effectively communicate organizational change to management, employees, stockholders, and customers.

This book discusses the place of communication in economic development and social change, not only as it pertains to "developing" societies, but also as it relates to the "developed" societies where socio-economic advancement has created a pressing need for social change or the elimination of the dysfunctional effects of industrial development. Addressed are historical development, theoretical perspectives, and implementation strategies and methods. In doing so,

the contributors touch on the relevance of economics, sociology, psychology, organization, public relations, management and ethics, as well as the impact of multinational corporations on host-country development and social change.

Communication has become more complex as businesses compete globally. This book explores corporate communication as both a professional practice and as an academic discipline. The essays and case studies provide numerous perspectives on topics such as diversity, sexual harassment, global corporate communications, and communicating corporate culture. These essays are meant to stimulate thought and encourage additional research.

Argues that many corporate executives have destroyed the value of their companies, cheated stockholders, employees, and the public, and compromised the integrity of financial markets and accountants while enriching themselves.

Highlights successful communication practices at Dell, General Electric, Microsoft, and Monsanto.
