Introduction. Legitimacy is the essential but ambiguous foundation of the criminal justice system: essential because the system cannot function without legitimacy and ambiguous because there is no consensus on what it means, precisely. It is a concept that applies not just to the criminal justice system and its processes, but also to political institutions and processes generally—primarily public institutions, but private ones too.

This chapter sets some parameters for the discussion that follows. It asks what people are doing when they talk about justice, especially criminal justice, and examines theories of justice and the significance of the related concepts of the rule of law, fairness, procedural justice and the legitimacy of the authority of the state.
