Lucas workshop instructions - magnetos

Magneto Tips Forward: this document is intended as a simple guide containing tips for the servicing and maintenance of Lucas and BTH magnetos – both makes being basically of the same design. Contrary to popular belief, Lucas and BTH made quality instruments and most mags fail either through not having been serv iced properly, or though age alone.

Magneto Tips

The Universal EasyCap can be mounted in a number of places in the Lucas SR1 rotating-magnet magneto. In this example, it will be mounted on the screw that can also serve as the cut-out terminal. The circuit board is cut and drilled as shown in the first two photos. On the capacitor side of the board, the edge shown in the first photo should be ...

Lucas SR1 - Brightspark Magnetos

This link & one gave you before are a UK sponsored site with magneto info. There is a section with some Lucas info. They only have on there what they have found to scan into it not everything. In the Fairbanks Morse section read the Fundamentals of Magnetos section on how coils are wound and work. There is a primary & secondary winding in the coil.

Up for auction is a Lucas ...

Other - Engine Magneto

Up for auction is a Lucas magneto. Type MK1-3 for rebuild or spares, probably too good for spares. Direction arrow indicates anti-clockwise rotation looking at the drive end. It is in good condition externally. No severe corrosion. The points look to be in good complete order. HT lead feed-out tower is in nice condition with good internal thread.
