If you are an individual with a disability and believe you have been discriminated against, it is often hard to find a lawyer to help remedy your situation. Accordingly, 'self-help' may often be your most, or your only, viable strategy. But how to proceed? This book serves as a badly needed practical guide to disability discrimination law. Covering a wide range of issues faced by individuals with different kinds of disabilities, it not only describes those individuals' legal rights but also suggests solutions to disability discrimination issues that are more practical and less expensive than filing a lawsuit. Written by two disability law experts, Ruth Colker, whose son is developmentally disabled, and Adam Milani, who is paralyzed from the chest down, this book is informed by their scholarly expertise but is also based on their collective practical experience from years of navigating issues of disability discrimination. *Everyday Law for Individuals with Disabilities* is the first in a series of practical guides to the law, organized by series editors Richard Delgado and Jean Stephancic, packed with useful overviews and advice for the people who need it most and can least afford it.

Material presented in many testing textbooks is appropriately broad and comprehensive, but the effect for students new to testing is difficulty in then translating the extensive information into the practical skills of administering, scoring, and interpreting tests to help inform the treatment process. Few resources exist to help students and mental health clinicians with the daunting task of learning how to synthesize test data from numerous instruments into a meaningful treatment plan and strategy for a client. This book was written to address that need. It provides readers with clear and detailed step-by-step procedures for using the WAIS-III, MMPI 2, MMPI A, Kuder Occupational Interest Survey, and the Strong Interest Inventory. It features case examples and practice opportunities in test usage, detailed discussion of approaches to client feedback and report writing, and a review of ethical and legal considerations in using tests in clinical settings. It takes readers through a systematic explanation of how to understand and integrate data from multiple sources to maximize the information gleaned from the tests. It also emphasizes using test data to maximize helpfulness to the client and how to interpret test data to clients in language that is understandable.

Explains how today's workers are a company's greatest asset and should be treated as such and discusses the flaws in the trend that sent service, manufacturing and retail sector jobs overseas in an effort to stay competitive through reduced wages and benefits. 25,000 first printing.

"As perfect as the beads of a rosary." -Sandra Cisneros, author of *The House on Mango Street* "Fresh, magical, beautiful, evocative" says Lisa See, about this wonderful first novel by Alex Espinoza. *Still Water Saints* chronicles a momentous year in the life of Agua Mansa, a largely Latino town beyond the fringes of Los Angeles and home to the Botánica Oshún, where people come seeking charms, herbs, and candles. Above all, they seek the guidance of Perla Portillo, the shop's owner. Perla has served the community for years, arming her clients with the tools to overcome all manner of crises, large and small. There is Juan, a man coming to terms with the death of his father; Nancy, a recently married schoolteacher; Shawn, an addict looking for peace in his chaotic life; and Rosa, a teenager trying to lose weight and find herself. But when a customer with a troubled and mysterious past arrives, Perla struggles to help and must confront both her unfulfilled hopes and doubts about her place in a rapidly changing world. Imaginative, inspiring, lyrical, and beautifully written, *Still Water Saints* evokes the unpredictability of life and the resilience of the spirit through the journeys of the people of Agua Mansa, and especially of the one woman at the center of it all. Theirs are stories of faith and betrayal, love and loss, the bonds of family and community, and the constancy of change.
