Revised edition of the authors's Microeconomics, [2017]

Like a lens that brings the indistinct into focus, Parkin's Microeconomics introduces students to the art of seeing the invisible, teaching them interpret the story told by the economic indicators, uncover meaning hidden in the headlines, and gain a clear vision through economic analysis. An inspired teacher and crystal-clear writer, Michael Parkin has long been dedicated to helping students discover and apply the timeless principles of economics. Parkin invites students to: / See and understand the issues of our time in the brightest light, with the most compelling examples and clearest explanation. / Visualize economic principles in action using a widely acclaimed approach to graphical analysis. / Gain perspective on current economic events and today's principal economic thinkers through a series of carefully crafted features.

Most students go to work in a business setting after graduation and, although business students will have multiple opportunities to see economic principles in action, students from other disciplines may not. The book aims to provide those students with an understanding of the economic forces behind their work.

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. Real examples. Real companies. Real business decisions. Covering the core economics principles and providing engaging, relevant examples within just nineteen Chapters, Hubbard Essentials of Economics is the perfect teaching and learning resource for a one semester unit. The authors present economics as a dynamic, relevant discipline for Australasian students. The key questions students of first year economics ask themselves are: 'Why am I here?' and " Will I ever use this? ' Hubbard Essentials of Economics answers these questions by demonstrating that real businesses use economics to make real decisions every day. Each chapter of the text opens with a case study featuring a real business or real business situation, refers to the study throughout the Chapter, and concludes with An Inside Look—a news article format which illustrates how a key principle covered in the Chapter relates to real business situations or was used by a real company to make a real business decision.
