This book engages with ideas that are highly topical and relevant: nationalism, nationhood and national identity as well as the relationship of these to postcolonialism. However, it does so within the broad field of drama. Examining the debates around the relationship between culture and national identity, the book documents the contributions of actual dramatists and film-makers to the chronicling of an important historical moment. The book breaks down what have been traditional barriers between theatre, film and television studies, considering the very broad range of ways in which the creators of dramatic fictions are telling us stories about ourselves at a time when the idea of being 'British' is increasingly problematic. Much has been written on the 'break up' of Britain, but there has been very little to-date about the impact that this is having on drama in the thetre, on television and on film. A very wide range of material is discussed in the book, ranging from box office hits such as "The Full Monty" to community based theatre in Scotland and Wales.

In the follow up to My Name is Tom: Gary – Tom's best friend; being convinced that he's in danger, moves to Australia in order to escape his paranoia. Meanwhile, Tom has become friends with his childhood bully, Big Chris. They decide travel to visit Gary together. But it doesn't take Chris long to drift back into the habit of bullying Tom. Until one night, where the rift between them boils over, after which, they both end up taking different paths. Until a few months later, when Chris starts to show up in Tom's new life randomly, displaying increasingly bizarre behavior.

This is the story of Joe, who was created with love and kindness. When he faced neglect and abuse, he turned to his God for mercy and compassion. He then found happiness in a new form of life.

Here I Stand gives the reader a glimpse into the life of a career police officer as recalled by Robert Fletcher. As Fletcher is standing at the head of the conference table in the Organized Crime Bureau, being honored for thirty years of dedicated service, memories come flooding back. Here I Stand presents these memories, good and bad, as they happened. This true account starts with the author being a teenager in trouble with the law. After being caught in the midst of a crime, he was given a second chance and became a straight arrow. Later, the Phoenix Police Department took a chance on him and an outstanding career began. From the very beginning his career was unique. About half way through the police academy, the entire class was pulled out and put into service to help quell a race riot in Phoenix. After being back in the academy for a short period, Fletcher and eleven other recruits were chosen to be turned loose on the City without training officers. That was a grand experiment that was never repeated. Robert Fletcher worked on numerous details and assignments during his career. They included Patrol, Walking Beat, Selective Enforcement, Warrant Detail, Solo Motorcycles, Detective Bureau, Community Relations Bureau, Information Desk, Communications Bureau, and at the time of his retirement, he was the sergeant in charge of the Investigations Unit of the Organized Crime Bureau. This book shares memories from each of these details and assignments.

Joe Louis held the heavyweight boxing championship longer than any other fighter and defended it a record 25 times. (In the 1930s and 1940s, the owner of the heavyweight title was the most prominent non-team sports competitor.) In addition, Louis helped bridge the gap of understanding between whites and blacks. During World War II he not only raised money for Army and Navy relief and entertained millions of troops as a morale officer, but became a symbol of American hope and strength. This biography of Louis outlines his rise from poverty in Alabama to become the best-known African American of his time and describes how an uneducated man, simple at his core, became so articulate and ended up on the side of right in the battles he fought, with fist or voice.

Joe's Trip Around the Sun is a novel for anyone who has ever felt the apparent conflict between religion and the discoveries of modern science. It tells the story of everyman Joe Gray, a humble trucker desperate to find evidence for the spiritual world and his own place within it. Lonely in his reluctant agnosticism, yet inspired by a persistent sense of the metaphysical, Joe must endure a harrowing journey beset with mind-bending technological obstacles, heartbreaking setbacks, and near-death experiences, before he has any chance of uncovering the truth. But will it be in time to be reunited with the love of his life? Will this newfound understanding enable him to overcome a dark evil that has grown to threaten the world? Joe's Trip Around the Sun blurs the line between the physical and spiritual worlds to the point where the reader may question the existence of that demarcation altogether.

A little bit of everything and a whole lot of nothing. Through parental guidance amounting to a dictatorial father with an unerving fondness for the Nazis, and a beleaguered, out of touch mother who believes Emily Pankhurst and the Suffragettes are a 60's Motown combo...Joe's choices in life are nothing if not his own. So facing a world fraught with blinding confusion and fearful, unavoidable evolution, where can Joe go but forward? Sex, travel, education, siblings, crime, sex, illness, careers, and sex. It's all his to figure out via an ill balanced blend of ignorance and innocence. Joe's journey is a touching, exploratory novel of growing pains and personalised global positioning told with a firm grip on the handles of humour and relation. A fictionalised biography. "Joe Public" is S. J. Smith's first novel
