The interest in national space legislation, and the importance thereof to regulating space activities conducted by private entities, gives a clear incentive to conduct a comparative analysis of the national space legislation of various states. The purpose of this report is to provide such a comparative analysis that will detail the similarities and differences between the national space laws of selected states with a focus on European comprehensive national space legislation.

National Space Legislation | SpringerLink

The European Union sets legislation in the form of Directives, based on the legal foundation established in Article 153 of the Treaty on the Functioning of the European Union. EU legislature has established a system of basic principles of safety management, which must be transposed into national law by the Member States.
