PROPOSED DRAFT of Fire Extinguishing

Fixed aerosol fire extinguishing systems (NFPA 2010) Fire extinguishing agents covered by NFPA 2010 shall be electrically non-conductive. By definition, aerosol is a fire extinguishing medium consisting of finely divided particles, whose diameter is typically less than 10 microns. Available technologies for aerosol-based fire fighting

Fixed Aerosol Fire ...

NFPA 2010 Edition 2015 Standard
for Fixed Aerosol Fire-
Extinguishing Systems became
effective today superseding
former Edition 2010. This is the
second revision cycle of this
standard, the original first
published in 2006. This edition
was also approved as an
American National Standard same
day. The main change is that the
visual inspection period is now bi-
annual, replacing the monthly
inspection requirement.
