This Stage 1 package includes the basic components needed to mount your engine into your Infiniti G37. This kit features a rear sump pan and the farthest back engine position. This makes fitting turbo systems a breeze with all the extra room at the front of the engine and additional radiator clearance.

The G37 is available as a coupe, sedan, and convertible. Additionally, there is a sportier option for the G series named the G37 IPL. IPL stands for Infiniti Performance Line. The engine received a bump in horsepower, suspension revisions, and sportier body styling. In 2010, one other option also became available in the G model line.

Arriving in 2008, the VQ37VHR was the successor to the VQ35 which was the engine found inside the 350Z, G35, M35, and various other Nissan/Infiniti vehicles. Nissan first introduced the Variable Valve Event and Lift (VVEL) technology on the VQ37VHR as a way to increase horsepower to keep up with the competition such as the Ford Mustang.
