Provision of library service to blind and physically handicapped individuals is an ever-developing art/science requiring a knowledge of individual needs, a mastery of information science processes and techniques, and an awareness of the plethora of available print and nonprint resources. This book is intended to bring together a composite overview of the needs of individuals unable to use print resources and to describe current and historic practices designed to meet those needs. - Preface.

A complete reference for Construction Superintendents, divided into three sections: Administrating Construction Contracts, Supervising the Construction Process, and Construction Components and Technology. The book covers administrative procedures, review of contract documents, basic managerial practices, tips for successful job completion and more.
