Restorative nursing is the long-term care of residents in our skilled nursing facilities, or nursing homes. Restorative nursing helps to maintain the progress made in other therapies including physical, occupational, and speech. A plan is put into place by the resident's therapist, and the restorative aid will assist in the implementation of that plan. As its name suggests, restorative nursing helps your loved one restore his or her faculties.

EVOLUTION OF THE "RESTORATIVE CARE TEXTBOOK" PUBLISHED Increasing demand of restorative care and lack of all in one compiled educational resources led to the evolution of the restorative care textbook. This book has been created after an extensive search of restorative care profession and keeping in mind the new trends and procedures required for the on job tasks. Our lead author K.M.Farooq has over 39 years of experience in the healthcare field and especially in patient care area. His expertise and input has served as a valuable resource which provided a very unique touch to this project. After many years of working on this project, the book is ready and we are proud to present our book "RESTORATIVE CARE TEXTBOOK: THEORY AND CLINICAL APPROACH." The authors have tried to keep the book concise and to the point. The knowledge in this book has been provided for individuals planning to pursue a certified nursing assistant (CNA), restorative aide (RA), restorative care assistant (RCA), restorative nursing assistant (RNA), rehabilitation therapy technician (RTT), patient care technician (PCT) or (PCA) associate profession at a postsecondary or college level. The language used in the book is simplistic and somewhat easy to comprehend for individuals to understand the concepts of patient care. Checking your state, local and federal scope of practice for restorative care is recommended and advised. Finally the authors would like to thank everyone who has contributed in making this project possible.
