An immensely persuasive work of literary criticism that opens a new chapter in the American dialogue on race—and promises to change the way we read American literature. Morrison shows how much the themes of freedom and individualism, manhood and innocence, depended on the existence of a black population that was manifestly unfree--and that came to serve white authors as embodiments of their own fears and desires. According to the *Chicago Tribune*, Morrison "reimagines and remaps the possibility of America." Her brilliant discussions of the "Africanist" presence in the fiction of Poe, Melville, Cather, and Hemingway leads to a dramatic reappraisal of the essential characteristics of our literary tradition. Written with the artistic vision that has earned the Nobel Prize-winning author a pre-eminent place in modern letters, *Playing in the Dark* is an invaluable read for avid Morrison admirers as well as students, critics, and scholars of American literature.

Examines the effect of a racially divided society on nineteenth century American writings, and discusses works by Poe, Hawthorne, Melville, and Twain

Best known for her novels, Toni Morrison enters the realm of literary criticism to draw attention to the often overlooked significance of race in literature. Demonstrating 'the impact of racism on those who perpetuate it,' she shows that the quintessentially American literary themes of freedom and individualism depend on the existence of a black population that is manifestly not free. Reading between the lines of classic American fiction, Morrison argues that literature is never raceless, and that equating whiteness with universality is the problematic element overlooked in literary studies. Morrison denounces the 'color-blind' approach, and asks that we open our eyes to the realities of race, representation, and power. Book jacket.

Toni Morrison's *Playing in the Dark: Whiteness and the Literary Imagination* is a seminal piece of literary criticism, and a masterclass in the critical thinking skill of interpretation. Interpretation plays a vital role in critical thinking: it focuses on interrogating accepted meanings and laying down clear definitions on which a strong argument can be built. Both history and literary history in the US have frequently revolved around understanding how Americans define themselves and each other, and Morrison's work seeks to investigate, question, and redefine one of the central concepts in American history and American literary history: color.. Morrison turned to the classics of American literature to ask how authors had chosen to define the terms 'black' and 'white.' Instead of accepting traditional interpretations of these works, Morrison examined the

way in which 'whiteness' defines itself through 'blackness,' and vice versa. Black bondage and the myths of black inferiority and savagery, she showed, allowed white America to indulge its own defining myths - viewing itself as free, civilized, and innocent. A classic of subtle and incisive interpretation, *Playing in the Dark* shows just how crucial and how complex simple-looking definitions can be.

What is race and why does it matter? Why does the presence of Others make us so afraid? America's foremost novelist reflects on themes that preoccupy her work and dominate politics: race, fear, borders, mass movement of peoples, desire for belonging. Ta-Nehisi Coates provides a foreword to Toni Morrison's most personal work of nonfiction to date.

In her final novel, Willa Cather departed from her usual Great Plains settings to plumb the turbulent relationships between slaves and their owners in the antebellum South. *Sapphira and the Slave Girl* is set in Virginia just before the Civil War. Sapphira is a slave owner who feels she has come down in the world and channels her resentments into jealousy of her beautiful mulatto slave, Nancy. Sapphira's daughter Rachel, an abolitionist, opposes her mother's increasingly shocking attempts to persecute Nancy. The struggles of these three strong-willed women provide rich material for Cather's narrative art and psychological insight. **BONUS:** The edition includes an excerpt from *The Selected Letters of Willa Cather*.

Here is Toni Morrison in her own words: a rich gathering of her most important essays and speeches, spanning four decades. These pages give us her searing prayer for the dead of 9/11, her Nobel lecture on the power of language, her searching meditation on Martin Luther King Jr., her heart-wrenching eulogy for James Baldwin. She looks deeply into the fault lines of culture and freedom: the foreigner, female

empowerment, the press, money, "black matter(s)," human rights, the artist in society, the Afro-American presence in American literature. And she turns her incisive critical eye to her own work (*The Bluest Eye*, *Sula*, *Tar Baby*, *Jazz*, *Beloved*, *Paradise*) and that of others. An essential collection from an essential writer, *The Source of Self-Regard* shines with the literary elegance, intellectual prowess, spiritual depth, and moral compass that have made Toni Morrison our most cherished and enduring voice.

Nobel laureate Toni Morrison is one of the most widely studied of contemporary American authors. Her novels, particularly *Beloved*, have had a dramatic impact on the American canon and attracted considerable critical commentary. This 2007 Companion introduces and examines her oeuvre as a whole, the first evaluation to include not only her famous novels, but also her other literary works (short story, drama, musical, and opera), her social and literary criticism, and her career as an editor and teacher. Innovative contributions from internationally recognized critics and academics discuss Morrison's themes, narrative techniques, language and political philosophy, and explain the importance of her work to American studies and world literature. This comprehensive and accessible approach, together with a chronology and guide to further reading, makes this an essential book for students and scholars of African American literature.

Traces Morrison's theory of African American mothering as it is articulated in her novels, essays, speeches, and interviews. Mothering is a central issue for feminist theory, and motherhood is also a persistent presence in the work of Toni Morrison. Examining Morrison's novels, essays, speeches, and interviews, Andrea O'Reilly illustrates how Morrison builds upon black women's experiences of and perspectives on motherhood to develop a view of black motherhood that is, in terms of both maternal identity and role, radically different from motherhood as practiced and prescribed in the dominant culture. Motherhood, in

Morrison ' s view, is fundamentally and profoundly an act of resistance, essential and integral to black women ' s fight against racism (and sexism) and their ability to achieve well-being for themselves and their culture. The power of motherhood and the empowerment of mothering are what make possible the better world we seek for ourselves and for our children. This, argues O ' Reilly, is Morrison ' s maternal theory—a politics of the heart.
