tasks you will need to carry out in the role you are applying for. For example, as a firefighter you would be required to carry out calculations based on breathing apparatus timings and hose length calculations.

~~Pass Numerical Reasoning Tests | Practice Questions & Answers~~

Numerical aptitude tests (also known as numerical ability tests) evaluate how well a person works with numbers. This may include interpreting graphs and tables or using math and algebra to solve calculations. Numerical reasoning tests are a specific type of numerical test that will assess your ability to use numbers in a logical and rational way.
