Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Praised by instructors and students alike, PROGRAM EVALUATION, 6th Edition helps your students evaluate services and programs that they will encounter in their professional practice. In the process of learning evaluation techniques and skills, students will become proficient at critically analyzing evaluation studies conducted by others. The authors present and simplify all the essentials needed for a critical appreciation of evaluation issues and methodology. The text's clear writing style and clear presentation of concepts, as well as its hands-on and applied focus, guide students on how to gather evidence and demonstrate that their interventions and programs are effective in improving clients' lives. This edition's up-to-date coverage includes a greater number of references to current literature, emphasizing that consulting the literature is an important step in recognizing, developing, and evaluating evidence-based practice or research-informed practice. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Well-known in the field, Roys and Thyer present and simplify all the essentials needed for a critical appreciation of evaluation issues and methodology. From this text, students will learn how to gather evidence and demonstrate that their interventions and programs are effective in improving clients' lives. This text is known for its student-friendly writing style and clear presentation of concepts, as well as its hands-on and applied focus.

In Holding Fast the stresses faced by caregiving organizations are identified and appropriate strategies for tackling these to create a resilient, effective organization are discussed.

This text provides comprehensive advice on how to build a successful grant proposal, from the top down and from the bottom up. Editor Robert J. Sternberg gathers editorial expertise from distinguished members of associations in the Federation of Associations of Behavioral and Brain Sciences, which includes some of the most successful grant applicants and grant givers in the field of brain and behavioral sciences. The chapter authors offer readers practical advice on planning, executing, submitting, and revising grant proposals in order to maximize their chances of success. Exploring both grant writers' and grant providers' perspectives, Writing Successful Grant Proposals from the Top Down and Bottom Up provides valuable insight into general strategies on how to write and submit proposals, as well as detailed information on the various types of proposals needed to reach particular research and teaching goals.

The volume sheds new light on reducing disparities by complementing currently available monographs, through the provision of solutions that are not only theoretically innovative but also empirically effective. Indeed, Cancer Disparities: Causes and Evidence-Based Solutions admirably achieves two key objectives that are crucial for advances in the field: (a) providing an up-to-date overview of cancer-related disparities and (b) describing evidence-based interventional approaches to close the cancer-related disparities gap. The implicit promise is that these approaches will enable public health practitioners, cancer control workers, and community members to use or adapt them in their own communities. This volume is essential to help make that promise a reality."--PscCRITIQUES Cancer is not randomly distributed in the United States. Its incidence varies by race, ethnicity, socioeconomic status, and other geographic and demographic factors. This volume, co-published with the American Cancer Society, is the first to examine the biological, racial, and socioeconomic factors that influence cancer incidence and survival. In addition, it presents 15 previously unpublished, evidence-based interventions to reduce and eliminate cancer disparities. The book explains the nature, scope, and causes of cancer disparities across different populations and then presents unique programs proven to reduce such inequalities in the areas of cancer prevention, screening and early detection, treatment, and survivorship. They represent a variety of cancers, populations, and communities across the U.S. Descriptions of each intervention include tests of effectiveness and are written in sufficient detail for readers to replicate them within their own communities. Key Features: Offers an in-depth look at the latest research behind cancer disparities Written by highly respected and published cancer researchers Includes 15 never-before published, evidence-based interventions that readers can replicate Discusses breast, colorectal, cervical, and other pernicious cancers Includes interventions for African-American, Hispanic, Native American, and other populations

Praise for HANDBOOK OF HEALTH SOCIAL WORK SECOND EDITION "Handbook of Health Social Work, Second Edition is a crucial addition for seasoned practitioners' libraries, as well as an essential foundation for fledgling social workers ready to enter health as a practice and research area."

—From the Foreword by Suzanne Heurtin-Roberts, U.S. Department of Health and Human Services "The book's strengths include the high quality of writing and the expertise of its contributors. It covers the field of health social work in significant depth and is sure to leave readers well informed." —Mary Sormanti, PhD, MSW, Associate Professor of Professional Practice, Columbia University School of Social Work "Quite simply, this is the definitive volume for health and social work. In this second edition, Gehlert and Browne and their expert contributors have confidently managed to keep pace with current theory and empirical research across a wide range of subject matter that will be of interest to practitioners, educators, and researchers." —Michael Vaughn, PhD, Assistant Professor, School of Social Work, School of Public Health, and Department of Public Policy Studies, Saint Louis University Thoroughly revised and updated, the only comprehensive handbook of its kind covering the diverse field of health social work Now in its Second Edition, Handbook of Health Social Work provides a comprehensive and evidence-based overview of contemporary social work practice in health care. Written from a wellness perspective, the chapters cover practice and research areas ranging from chronic disorders to infectious disease, from physical to mental disorders, and all areas in between. An excellent resource preparing social workers for the present and future challenges of practice in the field of health care, the Handbook of Health Social Work, Second Edition features discussion on: New trends in social work and health care, including genetics, transdisciplinary care, as well as national and state changes in policy Health social work and children The wide array of roles performed by social workers in health-care settings Ethical issues and decision making in a variety of arenas Understanding of community factors in health social work Edited by two respected leaders in the field of health social work, this second edition includes contributions from a diverse team of notable experts, researchers, and scholars addressing multiple theoretical foundations, models, issues, and dilemmas for the social worker in health care. The resulting resource offers both a foundation for social work practice in health care and a guide for strategy, policy, and program development in proactive and actionable terms.

The fifth edition of INTERVIEWING IN ACTION IN A MULTICULTURAL WORLD provides students with the clinical wisdom and hands-on practice to fully develop their clinical interviewing skills. Authors Bianca Cody Murphy and Carolyn Dillon have expanded many sections of the book with new material on technology, multiculturalism, and other timely topics. This up-to-date text also features new practice examples, essay questions, and self-exploration activities to prepare students for a variety of practice settings. It can be used as a guidebook for students who want to promote change through the client-clinician relationship. Praised nationwide by instructors in the helping profession, INTERVIEWING IN ACTION IN A MULTICULTURAL WORLD is a practical, accessible text that prepares students for careers in the human services field. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Social workers are increasingly faced with the demands of evaluating their own programs and practice to maintain accountability to funding agencies, secure funding, and remedy a number of social problems facing our society. One of the nine basic competencies required by the social work accreditation agency is to be able to conduct evaluations. Evaluation is a critical area of practice for demonstrating accountability to clients, communities, numerous other stakeholders, and funding and regulatory agencies. Social Work Evaluation, Third Edition, offers a straightforward guide to a broad range of social work evaluations at both the program and practice levels. Author James R. Dudley's seven-step approach to evaluation makes use of qualitative, quantitative, and mixed research methods to provide oversight and address important issues at the planning,

implementation, and outcome stages of a program or practice intervention. His unique focus on involving clients in the evaluation process ensures that social workers consistently improve their capacity to impact their clients' well-being and remain accountable to them and others they serve. Case examples from the extensive evaluation experience of the author and others illustrate a wide range of logic-based methods discussed throughout the text for real-world application. This comprehensive text effectively aims to enhance student and practitioner skill sets to meet these demands of a changing field.

Research Methods in Social Work helps students develop evidence-based practice by involving them in the process of research methodology. An innovative storytelling approach follows two students engaged in internships who go through the steps and tasks required to design a program and evaluate it in their practicum. Readers can see how realistic decisions arise in planning research and the activities necessary to support and conduct a research effort. Students learn the importance of comparison group designs, operationalizing variables, the use of valid and reliable measurements, and how these can affect the obtained results. Specific topics include research ethics, developing questionnaires and instruments, techniques for selecting client and community samples, and evaluating one's practice with single system designs. This edition features a new focus on understanding the statistical procedures, symbols, and findings commonly found in research publications. Instructor and student friendly, it contains self-review questions as well as potential assignments. Research Methods in Social Work prepares students to successfully consume social work research and lays the foundation for those who may want to create research during their academic and professional careers. For a look at the specific features and benefits of Research Methods in Social Work, visit [cognella.com/research-methods-in-social-work-features-and-benefits](http://cognella.com/research-methods-in-social-work-features-and-benefits).
