Operators of PT6A engines are supported by Pratt & Whitney-owned and designated service facilities around the world, field support representatives on six continents, a 24/7 Customer First Centre for rapid expert support, the most advanced diagnostic capabilities for this market, including the Know My PT6 app, and the largest pool of Pratt & Whitney rental and exchange engines in the industry ...

PT6A - Pratt & Whitney

The ever reliable Pratt and Whitney Canada PT6A engine is manufactured in various sizes. The small variants of the PT6A engine come in two sections; the gas generator and the power section. The small variants feature a reverse flow combustion system and a two stage planetary reduction gearbox to increase efficiency.

Engine - PT6A-34

The PT6A-114 small turboprop engine that is easy to start and generates low emissions. Used on the Cessna 208 Caravan, this PT6A -114 model is the small variant of the ever reliable Pratt and Whitney Canada turboprop engine. Using the PT6 two shaft layout of a multi-stage compressor, combustion and turbine design to ensure easy maintenance and low running costs. This is a lightweight turboprop ...

Engine - PT6A-114

The Pratt & Whitney Canada PT6 is a turboprop aircraft engine produced by Pratt & Whitney Canada. Its design was started in 1958, it first ran in February 1960, first flew on 30 May 1961, entered service in 1964 and has been continuously updated since. It consists of two basic sections: a gas generator with accessory gearbox and a free power turbine with reduction gearbox, and is often ...
