

Sds R23 Refrigerants

Thank you for downloading **sds r23 refrigerants**. As you may know, people have search numerous times for their favorite books like this sds r23 refrigerants, but end up in harmful downloads.

Rather than reading a good book with a cup of coffee in the afternoon, instead they juggled with some harmful virus inside their computer.

sds r23 refrigerants is available in our digital library an online access to it is set as public so you can get it instantly.

Our book servers spans in multiple countries, allowing you to get the most less latency time to download any of our books like this one.

Merely said, the sds r23 refrigerants is universally compatible with any devices to read

Freon™ 23 (R-23) Refrigerant A Retrofit Refrigerant for Very Low Temperature Equipment The Freon™ refrigerant portfolio includes Freon™ 23 (R-23) refrigerant for equipment that needs to maintain very low temperatures (VLT), such as medical freezers and environmental chambers.

Freon™ 23 (R-23) Refrigerant

Freon™ 23 (R-23) Refrigerant Version 8.4 Revision Date: 10/08/2020 SDS Number: 1324787-00041 Date of last issue: 02/26/2020 Date of first issue: 02/27/2017 2 / 14 Other hazards Vapors are heavier than air and can cause suffocation by reducing oxygen available for breathing.

Freon 23 (R-23) Refrigerant

Used in very low temperature refrigeration systems, typically on the low stage of a multi-stage system. Has properties similar to R13 and can be used to replace R13 in an existing system. R23 has higher discharge temperatures than R13, however, and equipment which is not designed to take this into account may suffer related failures.

Trifluoromethane (R23) Safety Data Sheet P-4668 This SDS conforms to U.S. Code of Federal Regulations 29 CFR 1910.1200, Hazard Communication. Trifluoromethane (R23) (75-46-7)

Trifluoromethane (R23) Safety Data Sheet SDS P4668

Genetron® 23 A specialty low temperature refrigerant that may be used to replace R-13 and R-503 in the low stage of cascade systems. For new equipment and retrofits.

Genetron® 23 | Refrigerants Americas

Summary R23 is a HFC, used as a replacement for R13 and R503 in very low temperature refrigeration. It is also used as a clean fire suppressant as a replacement for Halon 1301. R23 is most commonly used in cascade systems at an evaporating temperature of -60oC to -100oC and at a condensing temperature of approximately -10oC to -40oC.
