in American culture. But fifty years of high-speed fun and pristine lawns have not come without cost. In the first comprehensive history of the small-bore engine and the technology it powers, Paul R. Josephson explores the political, environmental, and public health issues surrounding one of America's most dangerous pastimes. Each chapter tells the story of an ecosystem within the United States and the devices that wreak havoc on it—personal watercraft (PWCs) on inland lakes and rivers; all-terrain vehicles (ATVs) in deserts and forests; lawn mowers and leaf blowers in suburbia. In addition to environmental impacts, Josephson discusses the development and promotion of these technologies, the legal and regulatory efforts made to improve their safety and environmental soundness, and the

role of owners' clubs in encouraging responsible operation. Synthesizing information from medical journals, recent environmental research, nongovernmental organizations, and manufacturers, Josephson's compelling history leads to one irrefutable conclusion: these machines cannot be operated without loss of life and loss of habitat.

When all the joy in life is over, when simply waiting for an unavoidable and imminent death, it is the simplest of human rights to choose a quick and easy death in place of a slow and horrible one. This book covers the practicalities of implementing a quick, easy and painless suicide, and where to obtain the necessary equipment.

discretion in determining distribution. This study investigates the poverty targeting of this program. It indicates that relative to other safety net programs in low income countries, social assistance in Albania is fairly well targeted to the poor.

Do you know what "quatrefoil" and "impolitic" mean? What about "halcyon" or "narcolepsy"? This book is a handy, easy-to-read reference guide to the proper parlance for any situation. In this book you will find: Words You Absolutely Should Know (covert, exonerate, perimeter); Words You Should Know But Probably Don't (dour, incendiary, scintilla); Words

Most People Don't Know (schlimazel, thaumaturgy, epergne); Words You Should Know to Sound Overeducated (ad infinitum, nugatory, garrulity); Words You Probably Shouldn't Know (priapic, damnatory, labia majora); and more. Whether writing an essay, studying for a test, or trying to impress friends, family, and fellow cocktail party guests with their prolixity, you will achieve magniloquence, ebullience, and flights of rhetorical brilliance.

An essential work of the cinematic history of the Weimar Republic by a leading figure of film criticism First published in 1947, *From Caligari to Hitler* remains an undisputed landmark study of the rich cinematic history of the Weimar Republic. Prominent film critic Siegfried Kracauer examines German society from 1921 to 1933, in

light of such movies as *The Cabinet of Dr. Caligari*, *M*, *Metropolis*, and *The Blue Angel*. He explores the connections among film aesthetics, the prevailing psychological state of Germans in the Weimar era, and the evolving social and political reality of the time. Kracauer makes a startling (and still controversial) claim: films as popular art provide insight into the unconscious motivations and fantasies of a nation. With a critical introduction by Leonardo Quaresima which provides context for Kracauer's scholarship and his contributions to film studies, this Princeton Classics edition makes an influential work available to new generations of cinema enthusiasts.
