Introduces the processes of new venture creation and the critical knowledge needed to manage a business once it is formed. This text offers complete coverage and a practical hands-on approach to entrepreneurship. Supported by supplementary material for the lecturer and student in both a CD-Rom and companion website.

Entrepreneurial Small Business (ESB) provides students with a clear vision of small business as it really is today. It focuses on the distinctive nature

of small businesses that students might actually start versus high growth firms. The goal of the companies described in this textbook is personal independence with financial security; not market dominance with extreme wealth. Traditional beliefs and models in small business are discussed, as well as the latest findings and best practices from academic and consulting arenas. Katz and Green recognize the distinction between entrepreneurs who aim to start the successor to Amazon.com and the pizza place around the corner. They discuss the challenges facing entrepreneurs, while keeping focused on the small businesses students plan to start.

Small Business Management, 4e, takes a practical, down-to-earth approach to planning, organizing, and managing a small business. While based on current research, theory, and practice, the material is presented from a 'show-to' perspective, with many practical examples and applications from the business world. This text also explores arguments both for and against owning a small business. All three authors, Megginson, Byrd and Megginson, have had meaningful experience in the 'real world' as an owner, manager or employee of one or more small businesses.
