**Small Stocks, Big Money on Apple Books**  
" Microcaps are a three-card-monte play. If you don ' t know how to play, stay away. " This is the advice of Greg Sichenzia, a lawyer whose firm services small public companies. Sichenzia is one of twelve people Dave Gentry profiles in Small Stocks, Big Money: Interviews with Microcap Superstars (Wiley, 2016). I chose the verb " profiles " rather than " interviews " not because I didn ' t want to repeat a word from the subtitle but because this is not a book of interviews.

The Russell 2000 index of small-company stocks rose 6.1% last week, hitting its first record close since 2018 and extending a recent race ahead of other major indexes.

Small companies come with big risk, but potentially life-changing reward Small Stocks, Big Money provides first-hand perspective and insider information on the fast world of microcap investing. In a series of interviews with the superstars of small stocks, you'll learn how to discover the right companies and develop a solid investment strategy with a potentially big payoff. Each chapter includes a short bio of the investor in question, and provides key insight into the lessons learned from the investments that made them millions—or in some cases, hundreds of millions. You'll learn each investor's top stock picks, and how they originally chose the investments that became their gold mines. Whether you're a professional investor or a novice, this book is a unique and valuable source of information for anyone interested in the volatile world of small stocks and big money. The smaller the company, the bigger the risk—and the bigger the potential payoff! These interviews show you how to avoid or mitigate those risks, and how to choose the stocks with the best potential from the perspective of those who have done it very, very successfully. Learn the nuances of microcap investing Read the stories of the pros who have made millions Gain expert insight from top microcap investors Avoid the potential pitfalls and reap the big rewards Taking a risk on a small company can lead to tremendous gains when they become an industry giant. The trick is in choosing the company that is likely to follow that trajectory, and allocating your investment appropriately to protect yourself in case of disaster. Small Stocks, Big Money gives you a head start by teaching you what the pros wish they knew then.

The key to building wealth the low-priced stock way Low-priced gems, or what author Hilary Kramer calls "breakout stocks" come in all kinds of shapes and sizes but they all have three things in common: (1) they are mostly under \$10; (2) they are undervalued, and (3) they have specific catalysts in the near future that put them on the threshold of breaking out to much higher prices. In The Little Book of Big Profits from Small Stocks, small stock expert Hilary Kramer looks for stocks with fifty to two hundred percent upside potential! From drug stocks that may have been punished because an FDA approval failed to materialize when Wall Street expected it to, to the overly zealous selling off of Ford, there are many great low-priced stock opportunities. In this Little Book you'll learn: How to identify the low cost stocks that have the potential to yield big profits The most important secret to making money in stock investing Plus, you'll gain instant access to a website with educational videos, interactive tools and stock recommendations The Little Book of Big Profits from Small Stocks explains Kramer's methodology and gives you the ability to analyze the opportunities to pick your own winners.

In MicroCap Superstars, Dave Gentry provides a unique look at how the movers and shakers in the fast world of small stocks have made their fortunes. Readers will learn the secrets of the pros who have made millions, and in some cases, hundreds of millions investing in small, little know companies that later became giants of their industry. Each chapter provides a short biography of the Superstar, his top stock picks, a history of how they were discovered, and the key lessons learned. Whether one is a professional investor or a novice, this book is a unique and valuable source of information for anyone interested in the volatile world of small stocks and big money.

A world-renowned money manager shares winning strategies for small-stock investing Since forming Bares Capital Management, Inc. in 2000, Brian Bares has shown that above average returns can be generated through the careful selection of small company common stocks. Additionally, he's shown how concentrating capital in a handful of ideas improves the potential for outperformance by increasing the depth of knowledge of each position and allowing each security to have a more meaningful impact on the portfolio. In The Small-Cap Advantage: How Top Endowments and Foundations Turn Small Stocks Into Big Returns, Bares describes how endowment-model investors and aspiring managers can gain meaningful exposure to small stocks while sidestepping many of the obstacles that have historically prevented institutional investment in the asset class. The book also Details the historical outperformance of small-cap stocks Contrasts the various strategies employed by managers in the space Explains how aspiring managers can structure a firm to boost performance and attract institutional capital Describes how endowment-model institutions can evaluate and engage outside managers for their small-cap allocations Summarizes important topics such as liquidity and the research process Bigger is not better. The Small-Cap Advantage reveals that small stocks have historically performed better than large ones, and that lack of competition in small-cap stocks provides diligent managers with a singular opportunity to outperform.

Small companies come with big risk, but potentially life-changing reward Small Stocks, Big Money provides first-hand perspective and insider information on the fast world of microcap investing. In a series of interviews with the superstars of small stocks, you'll learn how to discover the right companies and develop a solid investment strategy with a potentially big payoff. Making BIG Money in Small Stocks is an intelligent, straightforward guide to choosing quality stocks, buying them at the lowest price and selling them for the best profit. The book prepares you to invest with confidence in quality, low-priced stocks that have the potential for huge profits.

Praise for SMALL STOCKS for BIG PROFITS "George has done it again with Small Stocks for Big Profits. His in-depth experience is invaluable in helping traders explore stocks that are \$5 or less, without getting caught up in the fly-by-night idea companies that plague this investment level. He shows you where to look for opportunity and more importantly how to lock in profits in this little understood investment arena. Impressive!" —Noble DraKoin, author of Winning the Trading Game In Small Stocks for Big Profits, George Angell outlines an effective strategy for finding up-and-coming companies with the potential of earning you incredible returns. Filled with in-depth insights and practical advice, this reliable resource shows you how using a combination of technical and fundamental analysis-along with other essential tools-can put you in a position to profit from the explosive growth of smaller companies with undervalued, low-priced stocks. Page by page, you'll discover how to incorporate this proven approach into your own investment endeavors as Angell discusses how to use it to select, place, and exit trade after profitable trade. Small, speculative stocks are quickly beginning to appear on the radar screens of investors around the world. If you want to make the most of your time in this lucrative market, pick up Small Stocks for Big Profits today and put its invaluable insights to work for you.

**Penny Stocks: Penny Stock Tips on How to do Penny Stock Investing, Penny Stock Trading, Penny Stocks to Watch, Penny Stocks Picks, Where to Buy Penny Stocks & How to Make Penny Stock Fortunes -- There ' s a lot of hype out there about penny stocks. Internet spam and flashy web sites claim that penny stocks turn your tiny investment into a big, big return. But are penny stocks all that they ' re cracked up to be? Many investors and brokers may claim that investing in penny stocks is a good way to start small and end big. Buying penny stocks means buying low-priced shares of small businesses and companies. Penny stocks are much less " liquid " than other types of stocks, as penny stocks have few shareholders. For some investors, an initial small investment in penny stocks can mean big returns later on.**

Small is beautiful - if you have an eye for an opportunity. While most big fund managers and private investors seek the apparent safety of the largest stocks, the best investment ideas can be found among nearly 2,000 smaller companies whose shares are quoted on the London Stock Exchange. This guide opens up a whole new world to investors, a world of solid companies that have found a profitable niche, ambitious start-ups with enormous growth potential and attractive takeover targets. However, the risks match the rewards and the unwary investors need to learn how to spot the pitfalls and which companies are small because they do not deserve to grow. The book is packed full of case studies demonstrating the successes, failures and potential of small companies. Each succinctly presents the lessons to be learnt from their experience. All investors looking to widen their portfolios will welcome this highly informative book covering an area of the stock market that is too often neglected by pundits, investors and the press.

From the author of The Next Big Investment Boom, this book provides everything prospective investors need to know about making the world's money markets work to their advantage, enabling them to turn basic investments into a winning portfolio. Big Money, Little Effort shows how to tailor portfolios to suit particular circumstances. Author Mark Shipman employs anecdotal and personal examples to discuss, in layman's terms, different investment strategies. Of particular use is a list of FAQs asked by the public, a glossary of financial terms, and a list of useful resources.
