Sovereignty and Its Discontents • 7 independent territorial entities; exclude external authority structures from the territory of the state. Yet both of these logics have been violated, more frequently for Westphalian sovereignty than international legal sovereignty, because logics of consequences can be so compelling in the international environment.

Sovereignty and Its Discontents - GSARI

Some analysts have argued that sovereignty is being eroded by one aspect of the contemporary international system, globalization, and others that it is being sustained, even in states whose governments have only the most limited resources, by another aspect of the system, the mutual recognition and shared expectations generated by international society.
