Adolescence is recognised as a turbulent

# Access Free The Adolescent Psyche Jungian

period of human development. Along with the physical changes of puberty, adolescents undergo significant transformations in the way they think, act, feel and perceive the world. The disruption that is manifest in their behaviour is upsetting and often incomprehensible to the adults surrounding them.

The Jungian Model of the Psyche. Few

# Access Free The Adolescent Psyche Jungian

people have had as much influence on modern psychology as Carl Jung; we have Jung to thank for concepts like extroversion and introversion, archetypes, modern dream analysis, and the collective unconscious. Psychological terms coined by Jung include the archetype, the complex, synchronicity, and it is from his work that

and archetypal material in order to provide a balance or compensation to conscious life. He thought that the ego was prone to making inappropriate choices or to one-sidedness, and that material arising from the unconscious could help to bring a better balance to the individual and enable further development to take place
