When the sickness came, every parent, every policeman, every politician...everyone over 16 years old fell ill. The lucky ones died. The rest begin to decompose, becoming crazed, confused, and hungry for young flesh. Now, every child and teen must fight for survival against the ferocious adults who hunt them in packs, like wild dogs. In the first three books of Charlie Higson???'s hit series, desperate groups of children in London struggle to find a safe place to live and a way to survive in this new world where death roams the streets.

The sickness infected everyone sixteen and over, and no one escaped its terror. Now kids all over London are forming allegiances and battling grown-ups in order to survive. But who is a friend and who is an enemy?

The disease only affects people sixteen or older. It starts with the symptoms of a cold. Then the skin begins to itch, and spots appear--spots that soon turn into pus-filled boils. But the worst part is the headache, the inner voices that tell you that you need to eat them . . . the young ones. When the Disaster strikes, the world turns upside down for Ed, Jack, Bam and the other students at Rowhurst School. The parents and older siblings they left back at home are dead--or worse.

The Fallen (Book 5) The Holloway crew are survivors. They've fought their way across London and made it to the Natural History Museum alive - just. But the fight will never end while the Enemy lives . . . The kids at the museum are looking for a cure. All they need are medical supplies. To get them means a journey down unknown roads. Suddenly it's not so clear who - or what - they're fighting.

The Hunted (Book 6) The others had promised that the countryside would be safer than the city. They were wrong. Now Ella's all-alone except for her silent rescuer, Scarface - and she's not even sure if he's a kid or a grown-up. Back in London, Ed's determined to find her. But getting out of town's never been more dangerous- because coming in the other direction is every SICKO in the country.

The Enemy is among us . . . First the sickness rotted the adults' minds. Then their bodies. Now they stalk the streets of London, hunting human flesh. The Holloway crew are survivors.
