Thanks MNb, I'll take a look! I also had a game after the book was published that cast doubt on this approach to 10.g3 for Black. I have a few new ideas in this line that deviate quite a bit earlier - I have been meaning to share them on my YouTube channel for a while now, but also somewhat holding out due to the fact that a 2nd edition was briefly discussed with another publisher, and a ...

Opening expert Tony Rotella presents a Sicilian repertoire for Black, the backbone of which consists of the Kalashnikov Variation.

The Kalashnikov is one of the most modern variations of the Sicilian Defence. As early as move four, Black lashes out in the centre and sets the tone for the rest of the game. Jan Pinski and Jacob Aagaard take a deep look at all the critical ideas and

A Variation by Any Other Name... One of the most popular --and intriguing-- variations of the Sicilian Defense is the so-called Chelyabinsk Variation. In the West, it is known as the Sveshnikov Variation, while older opening monographs may refer to it as the Lasker-Pelikan Variation. It is called the Chelyabinsk Variation in Russia. It is the variation that arises after 1.e4 c5 2.Nf3 Nc6 3.d4 cxd4 4.Nxd4 Nf6 5.Nc3 e5. Once dismissed by theoreticians as "anti-positional," it is now common at all levels. In this monumental work, grandmaster Gennadi Timoshchenko, one of the creative founders of the entire line, puts the entire variation into both a personal and historical perspective and then examines the theory and practice of this line in great detail. From the foreword by Garry Kasparov: "Timoshchenko's book on the Chelyabinsk Variation is both very interesting and necessary. Behind it lies an enormous amount of work, as will become evident as you read and especially play through the author's analysis. Readers will be able to get a definitive insight into the genesis of the Chelyabinsk Variation...In its 200 chapters, more or less every important branch of the Chelyabinsk Variation is examined. It is also unusual as it contains a huge amount of novelties at various levels of importance." Extraordinary analytical depth, cross-checked by strong engines, is complemented by historical and biographical perspectives to make this a truly unique opening manual. Regardless of what name you give it, Sicilian Defense: The Chelyabinsk Variation will provide you with a powerful weapon against 1.e4.

Starting Out: Sicilian Grand Prix Attack is a further addition to Everyman's best-selling Starting Out series, which has been acclaimed for its original approach to tackling chess openings. International Master Gawain Jones revisits the fundamentals of this opening, elaborating on the crucial early moves and ideas for both sides in a way that is often neglected in other texts.

The Grand Prix Attack is one of White's deadliest weapons against the Sicilian Defence. It continues to be highly popular with tournament chess players all over the world. While earlier publications mainly focused on tactics, this book the finally gives the GPA the coverage it deserves.

Grandmaster Johan Hellsten is convinced that mastering chess strategy - just like chess tactics - requires practice, practice and yet more practice! This outstanding book is a product of his many years' work as a full-time chess teacher, and is specifically designed as part of a structured training programme to improve strategic thinking. It focuses on a wide range of key subjects and provides a basic foundation for strategic play. Furthermore, in addition to the many examples, there's an abundance of carefully selected exercises which allow readers to monitor their progress and put into practice what they have just learned. Following such a course is an ideal way for players of all standards to improve. Although designed mainly for students, this book is also an excellent resource for chess teachers and trainers. An essential course in chess strategyContains over 400 pages of Grandmaster adviceIncludes more than 350 training exercises

Sicilian Warfare is a practical guide to the most dynamic defence against 1.e4, starting where opening theory ends and the middlegame begins. Ilya Smirin breaks down the strategic battle into easily understood elements and then looks at them in a dynamic setting. With illuminating annotations of Smirin's best Sicilian games with both colours, Sicilian Warfare offers a feast of attacking chess and a world-class guide to the most ambitious reply to 1.e4.

The Sicilian is far and away the most popular chess opening, and many players prefer to side-step the Open Sicilian with one of the Anti-Sicilian systems at White's disposal. This book equips Black to fight against all these lines. The Anti-Sicilian systems include: positionally motivated lines such as the 2 c3 Sicilian and the 3 Bb5 systems; slow but tricky attacking lines including the Closed Sicilian and the King's Indian Attack; aggressive but loosening ideas like the Grand Prix Attack and a variety of gambits. In the most critical variations, Rogozenko provides a choice between a solid and an aggressive option. He caters for those who meet 2 Nf3 with the three main moves, 2...d6, 2...e6 and 2...Nc6.

Grandmaster David Smerdon gives the Scandinavian a welcome twist by using it as an all-out attacking weapon. The repertoire he presents is one he has successfully employed at grandmaster level over many years, and the backbone is provided by the razor-sharp Portuguese and Icelandic gambits.

Grandmaster Simon Williams was taught the English Opening at the age of six and 1 c4 was his weapon of choice until long after he became an International Master. For this new work, he teamed up with acclaimed theoretician International Master Richard Palliser to explore his old favourite. 1 c4 remains an excellent choice for the club and tournament player. This book focuses on the set-up popularised by the sixth world champion, Mikhail Botvinnik, the so-called Botvinnik formation with 2 Nc3, 3 g3, 4 Bg2, 5 e4 and 6 Nge2. This system is compact but still aggressive and rewards an understanding of plans and strategies rather than rote memorisation of moves. In Opening Repertoire: The Iron English leading chess authors Simon Williams and Richard Palliser guide the reader through the complexities of this dynamic variation and carves out a repertoire for White. They examine all aspects of this highly complex opening and provide the reader with well-researched, fresh, and innovative analysis. Each annotated game has valuable lessons on how to play the opening and contains instructive commentary on typical middlegame plans. * A dynamic and easy-to-play repertoire for White * Complete coverage featuring several new ideas * Take your opponents out of their comfort zone!
